Section C - Descriptions and Specifications

DESCRIPTION/SPECIFICATION

NAVAIR Headquarters On-Site Shredding Service
Statement of Work
Patuxent River, MD 20670

1.0. Scope

NAVAIR requests on-site shredding at locations in and around Patuxent River Naval Air Station. Please see the locations, number of bins and other information on the attached Building Service List. Request drop off and leave behind the prescribed number of bins at each specified buildings for a total of 36 (96 Gallon) Bins and 47 (39 Gallon) Bins. Contractor will return once a month to shred the contents of the bins on-site.

Reserve the option to add up to 5 additional (96) gallon bins. Removal of the bins at the end of the contract. Request flat rate pricing and no other fees associated with service.

Add two additional CLINS for (2) unscheduled shredding events per Option that will provide weekly shredding of 20 (96 Gallon Bins) for 4 weeks each event to be executed only if needed.

2.0 Controlled Unclassified Information (CUI)

Controlled Unclassified Information (CUI) policy requires that agencies and organizations destroy CUI in a manner that makes it unreadable, indecipherable, and irrecoverable. The task of document destruction shall be conducted from start to finish on-site at the designated NAVAIR location listed in the NAVAIR Shred Table and witnessed by a Government employee or, if authorized by NAVAIR, a contractor employee may act as witness. The NAVAIR Headquarters Shred Table lists Building Facilitators who may act as witnesses.

3.0 Secure Collection Containers

The contractor shall provide secure lockable containers to collect and store materials to be shredded until such time destruction of the materials occurs. The contractor shall be required to provide containers that are adequate in size to accommodate the need of the office or centralized location (smaller containers for low volume, larger containers for higher volume). All containers and carts shall possess locking mechanisms and locks that can be opened with a master key.

4.0 Paper-based CUI Disposal

To dispose of paper-based CUI one of two methods can be used: single-step destruction or multistep destruction.

5.0 Guidelines for Single-Step Destruction:

Use cross-cut shredders that produce 1mm x 5mm (0.04in x 0.2 in) particles (or smaller); or Pulverize/disintegrate paper using disintegrator devices equipped with a 3/32 in (2.4mm) security screen.

6.0 Guidelines for Multi-Step Destruction:

Ensure CUI is secure while awaiting destruction. Many agencies use a locked container to store CUI waiting to be shredded (commonly referred to as "shred bins").

Determine whether material will be shredded on-site or at another location. Material that an agency consolidates and collects or stores, or that it shreds to a degree not meeting the CUI destruction standard and then consolidates and collects or stores, at interim storage facilities (or

by subcontractors) must be protected within a controlled environment that prevents access by unauthorized individuals. Procedures must be in place to account for and track consolidated CUI until it is destroyed to the standards of the CUI Program.

Establish the frequency of destruction or "pick-up" to ensure large quantities of CUI are not being accumulated unnecessarily.

Verify and ensure the physical safeguarding measures for all stages of the destruction process, including, as applicable: consolidation locations, pick-up, transportation to storage locations, any interim storage locations, transportation to interim or final shredding, recycling, or destruction sites, and storage at such sites while awaiting shredding, recycling, or destruction. This requirement extends to any contractor or subcontractor facilities where consolidated CUI is stored prior to final destruction or recycling.

Limit the time between pick-up and final destruction.

Ensure that only authorized and vetted employees are given access to any interim storage locations.

Ensure that all material provided for destruction has been completely destroyed and has not been misplaced during any step in the process.

Ensure and verify that the end product is unreadable, indecipherable, and irrecoverable.

Establish a validation/inspection time line and quality control process to ensure that destruction is occurring as expected and in compliance with all requirements.

Document any multi-step destruction methods used.

7.0 Personnel Requirements

Performance of work under this contract will require access to sensitive information. The Contractor shall coordinate and execute security processes and/or the provision of badges to allow access to designated locations and handling of materials up to CUI per government direction. The Contractor shall comply with all applicable security requirements, abide by direction given by military police or other security personnel, and adhere to installation traffic laws.

8.0 Period of Performance:

Period of performance: 1 April 2023 - 31 March 2026

Basic: 1 April 2023 – 31 March 2024 Option

1: 1 April 2024 – 31 March 2025 Option 2:

1 April 2025 – 31 March 2026

This guidance document does not have the force and effect of law and is not meant to bind the public, except as authorized by law or regulation or as incorporated into a contract.

Accordingly, with regard to the public, this document only provides clarity regarding existing requirements under the law or agency policies. This guidance document is binding on agency actions as authorized under applicable statute, executive order, regulation, or similar authority.

CUI Notice 2019-03: Destroying Controlled Unclassified Information (CUI) in paper form

July 15, 2019

Purpose

1. This Notice provides guidance for destroying (via single and multi-step methods) Controlled Unclassified Information in paper form.
2. This Notice rescinds CUI Notice 2017-02, Controlled Unclassified Information and Multi-Step Destruction.

Background

3. The Director of the Information Security Oversight Office (ISOO), exercises Executive Agent

(EA) responsibilities for the CUI Program. Title 32 CFR Part 2002, Controlled Unclassified Information (September 14, 2016), establishes CUI Program requirements for designating, safeguarding, disseminating, marking, decontrolling, and disposing of CUI.

4. The CUI regulation requires that agencies destroy CUI "in a manner that makes it unreadable, indecipherable, and irrecoverable," (32 CFR It also prescribes National Institute of Standards and Technology (NIST) special Publication (SP) 800-88, Revision 1: Guidelines for Media Sanitization (December 2014) (NIST SP 800-88, rev 1) destruction methods, or any destruction method approved for Classified National Security Information (32 CFR 2001.47), unless the CUI category's authority mandates other destruction methods (CUI Specified categories). Agencies must also use any destruction method specifically required by law, regulation, or Government-wide policy for CUI Specified categories.

5. This Notice clarifies certain aspects of the requirements for destroying paper CUI. NIST SP 800-88, rev I, describes authorized methods for destroying other media types that contain CUI.

Single-step paper destruction standard

6. For the single-step paper destruction method, agencies must:

- a. Use cross-cut shredders that produce 1 mm x 5 mm (0.04 in. x 0.2 in.) particles (or smaller); or
- b. Pulverize/disintegrate paper using disintegrator devices equipped with a 3/32 in. (2.4 mm) security screen.

(NIST SP 800-88, rev I, Table A-I : Hard Copy Storage Sanitization)

7. The National Security Agency (NSA) maintains an Evaluated Products List (EPL) of equipment it authorizes to destroy hard copy (paper) Classified National Security Information. This equipment also meets CUI single-step paper destruction standards. The most updated NSA EPL for "Paper Shredders" can be found at:

<https://www.nsa.gov/resources/everyone/media-destruction/>

2

Multi-step paper destruction standard

8. We have noted concerns raised by agencies that the primary destruction method for paper can be costly and may have negative effects on recycling waste paper after the shredding process. Paragraph 9 of this Notice is intended to help address these concerns while still satisfying the regulatory requirement for disposing of CUI.

9. A multi-step destruction process in which an agency shreds CUI to a degree that doesn't meet the Table A-I standards, and then recycles or destroys it (or has a contractor or shared service provider shred and/or recycle/destroy), is a permitted alternative once your organization has verified and found this method satisfactory. Agencies that use a multi-step destruction process must follow the guidelines in this Notice and the attached document, and the process must result in CUI that is unreadable, indecipherable, and irrecoverable. However, the standards described in paragraph 6 of this Notice (NIST SP 800-88, rev I, Table A-I : Hard Copy Storage Sanitization) are still required for destroying CUI via a single-step method.

I O. The alternative method provided for in paragraph 9 is supported by NIST SP 800-88, rev 1, which states, "Methods not specified in this table may be suitable as long as they are verified and found satisfactory by the organization" (Appendix A — Minimum Sanitization Recommendations).

I I. Recycling hard copy (paper) satisfies CUI destruction requirements as part of a multi-step destruction process only if the process recycles the CUI into new paper. Recycling processes that convert paper into other products do not always render the CUI unreadable, indecipherable, and irrecoverable, and thus may not meet the CUI Program's standards.

Consolidating CUI and physical security

12. The physical security standards for CUI remain in effect until the information is destroyed in accordance with the standards of the CUI Program. Agencies maintain discretion to determine those controls necessary to meet the safeguarding requirements set forth in 32 CFR 2002.14.

13. Agencies may consolidate CUI prior to shredding, recycling, or destroying it. This includes shred bins and burn bags within the agency's controlled environments, and interim storage or contractor facilities.
 - a. Agencies must protect consolidated (e.g., baled) material that they collect and/or store at interim storage facilities (or by contractors) within a controlled environment that prevents access by unauthorized people.
 - b. Procedures must be in place to account for and track consolidated CUI until it is destroyed/recycled to the standards of the CUI Program.

Multi-Step Paper Destruction Guidelines for Controlled Unclassified Information (CUI)

Agencies must:

1. Ensure they secure CUI while awaiting destruction.
Many agencies use a locked container to store CUI waiting to be shredded (commonly referred to as "shred bins").
2. Determine whether material will be shredded on-site or at another location.
Material that an agency consolidates and collects or stores, or that it shreds to a degree not meeting the CUI destruction standard and then consolidates and collects or stores, at interim storage facilities (or by subcontractors) must be protected within a controlled environment that prevents access by unauthorized individuals. Procedures must be in place to account for and track consolidated CUI until it is destroyed to the standards of the CUI Program.
3. Establish the frequency of destruction or "pick-up" to ensure large quantities of CUI are not being accumulated unnecessarily.
4. This requirement extends to any contractor or subcontractor facilities where consolidated CUI is stored prior to final destruction or recycling.
5. Limit the time between pick-up and final destruction.

7. Ensure that all material provided for destruction has been completely destroyed and has not been misplaced during any step in the process.
8. Ensure and verify that the end product is unreadable, indecipherable, and irrecoverable.
9. Establish a validation/inspection timeline and quality control process to ensure that destruction is occurring as expected and in compliance with all requirements.
10. Document any multi-step destruction methods used.

52.204-13 SYSTEM FOR AWARD MANAGEMENT MAINTENANCE (OCT 2018)

(a) Definitions. As used in this clause--

Electronic Funds Transfer (EFT) indicator means a four-character suffix to the unique entity identifier. The suffix is assigned at the discretion of the commercial, nonprofit, or Government entity to establish additional System for Award Management (SAM) records for identifying alternative EFT accounts (see subpart 32.11) for the same entity.

Registered in the System for Award Management (SAM) means that--

- (1) The Contractor has entered all mandatory information, including the unique entity identifier and the EFT indicator (if applicable), the Commercial and Government Entity (CAGE) code, as well as data required by the Federal Funding Accountability and Transparency Act of 2006 (see subpart 4.14), into SAM;
- (2) The Contractor has completed the Core, Assertions, Representations and Certifications, and Points of Contact sections of the registration in SAM;
- (3) The Government has validated all mandatory data fields, to include validation of the Taxpayer Identification Number (TIN) with the Internal Revenue Service (IRS). The Contractor will be required to provide consent for TIN validation to the Government as a part of the SAM registration process; and
- (4) The Government has marked the record ``Active".

System for Award Management (SAM) means the primary Government repository for prospective Federal awardee and Federal awardee information and the centralized Government system for certain contracting, grants, and other assistance-related processes. It includes—

- (1) Data collected from prospective Federal awardees required for the conduct of business with the Government;
- (2) Prospective contractor-submitted annual representations and certifications in accordance with FAR subpart 4.12; and
- (3) Identification of those parties excluded from receiving Federal contracts, certain subcontracts, and certain types of Federal financial and non-financial assistance and benefits.

Unique entity identifier means a number or other identifier used to identify a specific commercial, nonprofit, or Government entity. See www.sam.gov for the designated entity for establishing unique entity identifiers.

(b) If the solicitation for this contract contained the provision 52.204-7 with its Alternate I, and the Contractor was unable to register prior to award, the Contractor shall be registered in SAM within 30 days after award or before three days prior to submission of the first invoice, whichever occurs first.

(c) The Contractor shall maintain registration in SAM during contract performance and through final payment of any contract, basic agreement, basic ordering agreement, or blanket purchasing agreement. The Contractor is responsible for the currency, accuracy and completeness of the data within SAM, and for any liability resulting from the Government's reliance on inaccurate or incomplete data. To remain registered in SAM after the initial registration, the Contractor is required to review and update on an annual basis, from the date of initial registration or subsequent updates, its information in SAM to ensure it is current, accurate and complete. Updating information in SAM does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(d)(1)(i) If a Contractor has legally changed its business name or "doing business as" name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in subpart 42.12, the Contractor shall provide the responsible Contracting Officer a minimum of one business day's written notification of its intention to--

(A) Change the name in SAM;

(B) Comply with the requirements of subpart 42.12 of the FAR; and

(C) Agree in writing to the timeline and procedures specified by the responsible Contracting Officer. The Contractor shall provide with the notification sufficient documentation to support the legally changed name.

(ii) If the Contractor fails to comply with the requirements of paragraph (d)(1)(i) of this clause, or fails to perform the agreement at paragraph (d)(1)(i)(C) of this clause, and, in the absence of a properly executed novation or change-of-name agreement, the SAM information that shows the Contractor to be other than the Contractor indicated in the contract will be considered to be incorrect information within the meaning of the "Suspension of Payment" paragraph of the electronic funds transfer (EFT) clause of this contract.

(2) The Contractor shall not change the name or address for EFT payments or manual payments, as appropriate, in the SAM record to reflect an assignee for the purpose of assignment of claims (see FAR subpart 32.8, Assignment of Claims). Assignees shall be separately registered in SAM. Information provided to the Contractor's SAM record that indicates payments, including those made by EFT, to an ultimate recipient other than that Contractor will be considered to be incorrect information within the meaning of the "Suspension of Payment" paragraph of the EFT clause of this contract.

(3) The Contractor shall ensure that the unique entity identifier is maintained with the entity designated at www.sam.gov for establishment of the unique entity identifier throughout the life of the contract. The Contractor shall communicate any change to the unique entity identifier to the Contracting Officer within 30 days after the change, so an appropriate modification can be issued to update the data on the contract. A change in the unique entity identifier does not necessarily require a novation be accomplished.

(e) Contractors may obtain additional information on registration and annual confirmation requirements at <https://www.sam.gov>.

(End of clause)

252.204-7000 DISCLOSURE OF INFORMATION (OCT 2016)

(a) The Contractor shall not release to anyone outside the Contractor's organization any unclassified information, regardless of medium (e.g., film, tape, document), pertaining to any part of this contract or any program related to this contract, unless--

- (1) The Contracting Officer has given prior written approval;

(2) The information is otherwise in the public domain before the date of release; or

(3) The information results from or arises during the performance of a project that involves no covered defense information (as defined in the clause at DFARS 252.204-7012, Safeguarding Covered Defense Information and Cyber Incident Reporting) and has been scoped and negotiated by the contracting activity with the contractor and research performer and determined in writing by the contracting officer to be fundamental research (which by definition cannot involve any covered defense information), in accordance with National Security Decision Directive 189, National Policy on the Transfer of Scientific, Technical and Engineering Information, in effect on the date of contract award and the Under Secretary of Defense (Acquisition, Technology, and Logistics) memoranda on Fundamental Research, dated May 24, 2010, and on Contracted Fundamental Research, dated June 26, 2008 (available at DFARS PGI 204.4).

252.204-7012 SAFEGUARDING COVERED DEFENSE INFORMATION AND CYBER INCIDENT REPORTING (JAN 2023)

(a) Definitions. As used in this clause--

Adequate security means protective measures that are commensurate with the consequences and probability of loss, misuse, or unauthorized access to, or modification of information.

Compromise means disclosure of information to unauthorized persons, or a violation of the security policy of a system, in which unauthorized intentional or unintentional disclosure, modification, destruction, or loss of an object, or the copying of information to unauthorized media may have occurred.

Contractor attributional/proprietary information means information that identifies the contractor(s), whether directly or indirectly, by the grouping of information that can be traced back to the contractor(s) (e.g., program description, facility locations), personally identifiable information, as well as trade secrets, commercial or financial information, or other commercially sensitive information that is not customarily shared outside of the company.

Controlled technical information means technical information with military or space application that is subject to controls on the access, use, reproduction, modification, performance, display, release, disclosure, or dissemination. Controlled technical information would meet the criteria, if disseminated, for distribution statements B through F using the criteria set forth in DoD Instruction 5230.24, Distribution Statements on Technical Documents. The term does not include information that is lawfully publicly available without restrictions.

Covered contractor information system means an unclassified information system that is owned, or operated by or for, a contractor and that processes, stores, or transmits covered defense information.

Covered defense information means unclassified controlled technical information or other information, as described in the Controlled Unclassified Information (CUI) Registry at <http://www.archives.gov/cui/registry/category-list.html>, that requires safeguarding or dissemination controls pursuant to and consistent with law, regulations, and Governmentwide policies, and is--

(1) Marked or otherwise identified in the contract, task order, or delivery order and provided to the contractor by or on behalf of DoD in support of the performance of the contract; or

(2) Collected, developed, received, transmitted, used, or stored by or on behalf of the contractor in support of the performance of the contract.

Cyber incident means actions taken through the use of computer networks that result in a compromise or an actual or potentially adverse effect on an information system and/or the information residing therein.

Forensic analysis means the practice of gathering, retaining, and analyzing computer-related data for investigative purposes in a manner that maintains the integrity of the data.

Information system means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information.

Malicious software means computer software or firmware intended to perform an unauthorized process that will have adverse impact on the confidentiality, integrity, or availability of an information system. This definition includes a virus, worm, Trojan horse, or other code-based entity that infects a host, as well as spyware and some forms of adware.

Media means physical devices or writing surfaces including, but is not limited to, magnetic tapes, optical disks, magnetic disks, large-scale integration memory chips, and printouts onto which covered defense information is recorded, stored, or printed within a covered contractor information system.

Operationally critical support means supplies or services designated by the Government as critical for airlift, sealift, intermodal transportation services, or logistical support that is essential to the mobilization, deployment, or sustainment of the Armed Forces in a contingency operation.

Rapidly report means within 72 hours of discovery of any cyber incident.

Technical information means technical data or computer software, as those terms are defined in the clause at DFARS 252.227-7013, Rights in Technical Data--Other Than Commercial Products and Commercial Services, regardless of whether or not the clause is incorporated in this solicitation or contract. Examples of technical information include research and engineering data, engineering drawings, and associated lists, specifications, standards, process sheets, manuals, technical reports, technical orders, catalog-item identifications, data sets, studies and analyses and related information, and computer software executable code and source code.

(b) Adequate security. The Contractor shall provide adequate security on all covered contractor information systems. To provide adequate security, the Contractor shall implement, at a minimum, the following information security protections:

(1) For covered contractor information systems that are part of an information technology (IT) service or system operated on behalf of the Government, the following security requirements apply:

(i) Cloud computing services shall be subject to the security requirements specified in the clause 252.239-7010, Cloud Computing Services, of this contract.

(ii) Any other such IT service or system (i.e., other than cloud computing) shall be subject to the security requirements specified elsewhere in this contract.

(2) For covered contractor information systems that are not part of an IT service or system operated on behalf of the Government and therefore are not subject to the security requirement specified at paragraph (b)(1) of this clause, the following security requirements apply:

(i) Except as provided in paragraph (b)(2)(ii) of this clause, the covered contractor information system shall be subject to the security requirements in National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171, "Protecting Controlled Unclassified Information in Nonfederal Information Systems and

Organizations” (available via the internet at <http://dx.doi.org/10.6028/NIST.SP.800-171>) in effect at the time the solicitation is issued or as authorized by the Contracting Officer.

(ii)(A) The Contractor shall implement NIST SP 800-171, as soon as practical, but not later than December 31, 2017. For all contracts awarded prior to October 1, 2017, the Contractor shall notify the DoD Chief Information Officer (CIO), via email at osd.dibcsia@mail.mil, within 30 days of contract award, of any security requirements specified by NIST SP 800-171 not implemented at the time of contract award.

(B) The Contractor shall submit requests to vary from NIST SP 800-171 in writing to the Contracting Officer, for consideration by the DoD CIO. The Contractor need not implement any security requirement adjudicated by an authorized representative of the DoD CIO to be nonapplicable or to have an alternative, but equally effective, security measure that may be implemented in its place.

(C) If the DoD CIO has previously adjudicated the contractor's requests indicating that a requirement is not applicable or that an alternative security measure is equally effective, a copy of that approval shall be provided to the Contracting Officer when requesting its recognition under this contract.

(D) If the Contractor intends to use an external cloud service provider to store, process, or transmit any covered defense information in performance of this contract, the Contractor shall require and ensure that the cloud service provider meets security requirements equivalent to those established by the Government for the Federal Risk and Authorization Management Program (FedRAMP) Moderate baseline (<https://www.fedramp.gov/resources/documents/>) and that the cloud service provider complies with requirements in paragraphs (c) through (g) of this clause for cyber incident reporting, malicious software, media preservation and protection, access to additional information and equipment necessary for forensic analysis, and cyber incident damage assessment.

(3) Apply other information systems security measures when the Contractor reasonably determines that information systems security measures, in addition to those identified in paragraphs (b)(1) and (2) of this clause, may be required to provide adequate security in a dynamic environment or to accommodate special circumstances (e.g., medical devices) and any individual, isolated, or temporary deficiencies based on an assessed risk or vulnerability. These measures may be addressed in a system security plan.

(c) Cyber incident reporting requirement.

(1) When the Contractor discovers a cyber incident that affects a covered contractor information system or the covered defense information residing therein, or that affects the contractor's ability to perform the requirements of the contract that are designated as operationally critical support and identified in the contract, the Contractor shall--

(i) Conduct a review for evidence of compromise of covered defense information, including, but not limited to, identifying compromised computers, servers, specific data, and user accounts. This review shall also include analyzing covered contractor information system(s) that were part of the cyber incident, as well as other information systems on the Contractor's network(s), that may have been accessed as a result of the incident in order to identify compromised covered defense information, or that affect the Contractor's ability to provide operationally critical support; and

(ii) Rapidly report cyber incidents to DoD at <https://dibnet.dod.mil>.

(2) Cyber incident report. The cyber incident report shall be treated as information created by or for DoD and shall include, at a minimum, the required elements at <https://dibnet.dod.mil>.

(3) Medium assurance certificate requirement. In order to report cyber incidents in accordance with this clause, the Contractor or subcontractor shall have or acquire a DoD-approved medium assurance certificate to report cyber incidents. For information on obtaining a DoD-approved medium assurance certificate, see <https://public.cyber.mil/eca/>.

(d) Malicious software. When the Contractor or subcontractors discover and isolate malicious software in connection with a reported cyber incident, submit the malicious software to DoD Cyber Crime Center (DC3) in accordance with instructions provided by DC3 or the Contracting Officer. Do not send the malicious software to the Contracting Officer.

(e) Media preservation and protection. When a Contractor discovers a cyber incident has occurred, the Contractor shall preserve and protect images of all known affected information systems identified in paragraph (c)(1)(i) of this clause and all relevant monitoring/packet capture data for at least 90 days from the submission of the cyber incident report to allow DoD to request the media or decline interest.

(f) Access to additional information or equipment necessary for forensic analysis. Upon request by DoD, the Contractor shall provide DoD with access to additional information or equipment that is necessary to conduct a forensic analysis.

(g) Cyber incident damage assessment activities. If DoD elects to conduct a damage assessment, the Contracting Officer will request that the Contractor provide all of the damage assessment information gathered in accordance with paragraph (e) of this clause.

(h) DoD safeguarding and use of contractor attributional/proprietary information. The Government shall protect against the unauthorized use or release of information obtained from the contractor (or derived from information obtained from the contractor) under this clause that includes contractor attributional/proprietary information, including such information submitted in accordance with paragraph (c). To the maximum extent practicable, the Contractor shall identify and mark attributional/proprietary information. In making an authorized release of such information, the Government will implement appropriate procedures to minimize the contractor attributional/proprietary information that is included in such authorized release, seeking to include only that information that is necessary for the authorized purpose(s) for which the information is being released.

(i) Use and release of contractor attributional/proprietary information not created by or for DoD. Information that is obtained from the contractor (or derived from information obtained from the contractor) under this clause that is not created by or for DoD is authorized to be released outside of DoD--

(1) To entities with missions that may be affected by such information;

(2) To entities that may be called upon to assist in the diagnosis, detection, or mitigation of cyber incidents;

(3) To Government entities that conduct counterintelligence or law enforcement investigations;

(4) For national security purposes, including cyber situational awareness and defense purposes (including with Defense Industrial Base (DIB) participants in the program at 32 CFR part 236); or

(5) To a support services contractor ("recipient") that is directly supporting Government activities under a contract that includes the clause at 252.204-7009, Limitations on the Use or Disclosure of Third-Party Contractor Reported Cyber Incident Information.

(j) Use and release of contractor attributional/proprietary information created by or for DoD. Information that is obtained from the contractor (or derived from information obtained from the contractor) under this clause that is created by or for DoD (including the information submitted pursuant to paragraph (c) of this clause) is authorized to be used and released outside of DoD for purposes and activities authorized by paragraph (i) of this clause, and for any other lawful Government purpose or activity, subject to all applicable statutory, regulatory, and policy based restrictions on the Government's use and release of such information.

(k) The Contractor shall conduct activities under this clause in accordance with applicable laws and regulations on the interception, monitoring, access, use, and disclosure of electronic communications and data.

(l) Other safeguarding or reporting requirements. The safeguarding and cyber incident reporting required by this clause in no way abrogates the Contractor's responsibility for other safeguarding or cyber incident reporting pertaining to its unclassified information systems as required by other applicable clauses of this contract, or as a result of other applicable U.S. Government statutory or regulatory requirements.

(m) Subcontracts. The Contractor shall--

(1) Include this clause, including this paragraph (m), in subcontracts, or similar contractual instruments, for operationally critical support, or for which subcontract performance will involve covered defense information, including subcontracts for commercial products or commercial services, without alteration, except to identify the parties. The Contractor shall determine if the information required for subcontractor performance retains its identity as covered defense information and will require protection under this clause, and, if necessary, consult with the Contracting Officer; and

(2) Require subcontractors to--

(i) Notify the prime Contractor (or next higher-tier subcontractor) when submitting a request to vary from a NIST SP 800-171 security requirement to the Contracting Officer, in accordance with paragraph (b)(2)(ii)(B) of this clause; and

(ii) Provide the incident report number, automatically assigned by DoD, to the prime Contractor (or next higher-tier subcontractor) as soon as practicable, when reporting a cyber incident to DoD as required in paragraph (c) of this clause.

(End of clause)

252.211-7003 ITEM UNIQUE IDENTIFICATION AND VALUATION (JAN 2023)

(a) Definitions. As used in this clause-

Automatic identification device means a device, such as a reader or interrogator, used to retrieve data encoded on machine-readable media.

(h) Certification Regarding Responsibility Matters (Executive Order 12689). (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals--

(1) [____] Are, [____] are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) [____] Have, [____] have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) [____] Are, [____] are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) [____] Have, [____] have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at 9.104-5(a)(2) for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the

taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(iv) The compensation (wage and fringe benefits) plan for all service employees performing work under the contract is the same as that used for these employees and equivalent employees servicing commercial customers.

(3) If paragraph (k)(1) or (k)(2) of this clause applies—
