

*Question 1:* Sir - On Sheet #9 at "SCOPE FOR EACH DOOR", the notes for both doors #7 and #8 state, "...requiring card reader access."

X takes this to mean a continuation of the NAVY being responsible for all of the doors electronic security once X has installed the new frame, door and door operating equipment, hinges closers, panic exit devices and the like. Please clarify.

**Answer: The contractor is to provide power to all electrical components. The card swipe access program will be installed by others but the fixture will still need power.**
