### 52.204-21 BASIC SAFEGUARDING OF COVERED CONTRACTOR INFORMATION SYSTEMS (NOV 2021)

#### (a) Definitions. As used in this clause--

Covered contractor information system means an information system that is owned or operated by a contractor that processes, stores, or transmits Federal contract information.

Federal contract information means information, not intended for public release, that is provided by or generated for the Government under a contract to develop or deliver a product or service to the Government, but not including information provided by the Government to the public (such as on public websites) or simple transactional information, such as necessary to process payments.

Information means any communication or representation of knowledge such as facts, data, or opinions, in any medium or form, including textual, numerical, graphic, cartographic, narrative, or audiovisual (Committee on National Security Systems Instruction (CNSSI) 4009).

Information system means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information (44 U.S.C. 3502).

Safeguarding means measures or controls that are prescribed to protect information systems.

#### (b) Safeguarding requirements and procedures.

(1) The Contractor shall apply the following basic safeguarding requirements and procedures to protect covered contractor information systems. Requirements and procedures for basic safeguarding of covered contractor information systems shall include, at a minimum, the following security controls:

(i) Limit information system access to authorized users, processes acting on behalf of authorized users, or devices (including other information systems).

(ii) Limit information system access to the types of transactions and functions that authorized users are permitted to execute.

(iii) Verify and control/limit connections to and use of external information systems.

(iv) Control information posted or processed on publicly accessible information systems.

(v) Identify information system users, processes acting on behalf of users, or devices.

(vi) Authenticate (or verify) the identities of those users, processes, or devices, as a prerequisite to allowing access to organizational information systems.

(vii) Sanitize or destroy information system media containing Federal Contract Information before disposal or release for reuse.

(viii) Limit physical access to organizational information systems, equipment, and the respective operating environments to authorized individuals.

(ix) Escort visitors and monitor visitor activity; maintain audit logs of physical access; and control and manage physical access devices.

(x) Monitor, control, and protect organizational communications (i.e., information transmitted or received by organizational information systems) at the external boundaries and key internal boundaries of the information systems.

(xi) Implement subnetworks for publicly accessible system components that are physically or logically separated from internal networks.

(xii) Identify, report, and correct information and information system flaws in a timely manner.

(xiii) Provide protection from malicious code at appropriate locations within organizational information systems.

(xiv) Update malicious code protection mechanisms when new releases are available.

(xv) Perform periodic scans of the information system and real-time scans of files from external sources as files are downloaded, opened, or executed.

(2) Other requirements. This clause does not relieve the Contractor of any other specific safeguarding requirements specified by Federal agencies and departments relating to covered contractor information systems generally or other Federal safeguarding requirements for controlled unclassified information (CUI) as established by Executive Order 13556.

(c) Subcontracts. The Contractor shall include the substance of this clause, including this paragraph (c), in subcontracts under this contract (including subcontracts for the acquisition of commercial products or commercial services, other than commercially available off-the-shelf items), in which the subcontractor may have Federal contract information residing in or transiting through its information system.

(End of clause)

#### 52.204-24 REPRESENTATION REGARDING CERTAIN TELECOMMUNICATIONS AND VIDEO SURVEILLANCE SERVICES OR EQUIPMENT (NOV 2021)

The Offeror shall not complete the representation at paragraph (d)(1) of this provision if the Offeror has represented that it "does not provide covered telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument" in paragraph (c)(1) in the provision at 52.204-26, Covered Telecommunications Equipment or Services--Representation, or in paragraph (v)(2)(i) of the provision at 52.212-3, Offeror Representations and Certifications-Commercial Products and Commercial Services. The Offeror shall not complete the representation in paragraph (d)(2) of this provision if the Offeror has represented that it "does not use covered telecommunications equipment or services, or any equipment, system, or service that uses covered telecommunications equipment or services" in paragraph (c)(2) of the provision at 52.204-26, or in paragraph (v)(2)(ii) of the provision at 52.212-3.

(a) Definitions. As used in this provision-

Backhaul, covered telecommunications equipment or services, critical technology, interconnection arrangements, reasonable inquiry, roaming, and substantial or essential component have the meanings provided in the clause 52.204-25, Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment.

(b) Prohibition.

(1) Section 889(a)(1)(A) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2019, from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. Nothing in the prohibition shall be construed to--

(i) Prohibit the head of an executive agency from procuring with an entity to provide a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Cover telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(2) Section 889(a)(1)(B) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2020, from entering into a contract or extending or renewing a contract with an entity that uses any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. This prohibition applies to the use of covered telecommunications equipment or services, regardless of whether that use is in performance of work under a Federal contract. Nothing in the prohibition shall be construed to--

(i) Prohibit the head of an executive agency from procuring with an entity to provide a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Cover telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(c) Procedures. The Offeror shall review the list of excluded parties in the System for Award Management (SAM) (<https://www.sam.gov>) for entities excluded from receiving federal awards for "covered telecommunications equipment or services."

(d) Representations. The Offeror represents that--

(1) It [ \_\_\_\_ ] will, [ \_\_\_\_ ] will not provide covered telecommunications equipment or services to the Government in the performance of any contract, subcontract or other contractual instrument resulting from this solicitation. The Offeror shall provide the additional disclosure information required at paragraph (e)(1) of this section if the Offeror responds "will" in paragraph (d)(1) of this section; and

(2) After conducting a reasonable inquiry, for purposes of this representation, the Offeror represents that--

It [ \_\_\_\_ ] does, [ \_\_\_\_ ] does not use covered telecommunications equipment or services, or use any equipment, system, or service that uses covered telecommunications equipment or services. The Offeror shall provide the additional disclosure information required at paragraph (e)(2) of this section if the Offeror responds "does" in paragraph (d)(2) of this section.

(e) Disclosures.

(B) A description of all covered telecommunications equipment offered (include brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); and

(C) Explanation of the proposed use of covered telecommunications equipment and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(1) of this provision.

(B) If not associated with maintenance, the Product Service Code (PSC) of the service being provided; and explanation of the proposed use of covered telecommunications services and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(1) of this provision.

(2) Disclosure for the representation in paragraph (d)(2) of this provision. If the Offeror has responded "does" in the representation in paragraph (d)(2) of this provision, the Offeror shall provide the following information as part of the offer:

(c) Representations.

(1) The Offeror represents that it [ \_\_\_\_ ] does, [ \_\_\_\_ ] does not provide covered telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument.

(2) After conducting a reasonable inquiry for purposes of this representation, the offeror represents that it [ \_\_\_\_ ] does, [ \_\_\_\_ ] does not use covered telecommunications equipment or services, or any equipment, system, or service that uses covered telecommunications equipment or services.

(End of provision)

#### 52.209-5 CERTIFICATION REGARDING RESPONSIBILITY MATTERS (AUG 2020)

(a)(1) The Offeror certifies, to the best of its knowledge and belief, that-

(i) The Offeror and/or any of its Principals-

(A) Are ( ) are not ( ) presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(B) Have ( ) have not ( ), within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) contract or subcontract; violation of Federal or State antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property (if offeror checks “have”, the offeror shall also see 52.209-7, if included in this solicitation); and

(C) Are ( ) are not ( ) presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in paragraph (a)(1)(i)(B) of this provision; and

(D) Have , have not , within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at 9.104-5(a)(2) for which the liability remains unsatisfied.

(1) Federal taxes are considered delinquent if both of the following criteria apply:

(i) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(ii) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(2) Examples. (i) The taxpayer has received a statutory notice of deficiency, under I.R.C. Sec. 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(ii) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. Sec. 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(iii) The taxpayer has entered into an installment agreement pursuant to I.R.C. Sec. 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(iv) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

(ii) The Offeror has ( ) has not ( ), within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

(2) Principal, for the purposes of this certification, means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a division or business segment; and similar positions).

(b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

(c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with a determination of the Offeror's responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror nonresponsible.

(d) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

(End of provision)

## FELONY CONVICTION UNDER ANY FEDERAL LAW (FEB 2016)

(a) As required by sections 744 and 745 of Division E of the Consolidated and Further Continuing Appropriations Act, 2015 (Pub. L. 113-235), and similar provisions, if contained in subsequent appropriations acts, the Government will not enter into a contract with any corporation that--

(1) Has any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability, where the awarding agency is aware of the unpaid tax liability, unless an agency has considered suspension or debarment of the corporation and made a determination that suspension or debarment is not necessary to protect the interests of the Government; or

(2) Was convicted of a felony criminal violation under any Federal law within the preceding 24 months, where the awarding agency is aware of the conviction, unless an agency has considered suspension or debarment of the corporation and made a determination that this action is not necessary to protect the interests of the Government.

(b) The Offeror represents that--

(1) It is [ ] is not [ ] a corporation that has any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability; and

(2) It is [ ] is not [ ] a corporation that was convicted of a felony criminal violation under a Federal law within the preceding 24 months.

52.212-1 INSTRUCTIONS TO OFFERORS--COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES  
(NOV 2021)  
{Tailored}

(a) North American Industry Classification System (NAICS) code and small business size standard. The NAICS code(s) and small business size standard(s) for this acquisition appear elsewhere in the solicitation. However, the small business size standard for a concern that submits an offer, other than on a construction or service acquisition, but proposes to furnish an end item that it did not itself manufacture, process, or produce is 500 employees if the acquisition--

(1) Is set aside for small business and has a value above the simplified acquisition threshold;

(2) Uses the HUBZone price evaluation preference regardless of dollar value, unless the offeror waives the price evaluation preference; or

(3) Is an 8(a), HUBZone, service-disabled veteran-owned, economically disadvantaged women-owned, or women-owned small business set-aside or sole-source award regardless of dollar value.

(b) Submission of offers. Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. Offers may be submitted on the SF 1449, letterhead stationery, or as otherwise specified in the solicitation. As a minimum, offers must show--

(1) The solicitation number;

- (2) The time specified in the solicitation for receipt of offers;
  - (3) The name, address, and telephone number of the offeror;
  - (4) A technical description of the items being offered in sufficient detail to evaluate compliance with the requirements in the solicitation. This may include product literature, or other documents, if necessary;
  - (5) Terms of any express warranty;
  - (6) Price and any discount terms;
  - (7) "Remit to" address, if different than mailing address;
  - (8) A completed copy of the representations and certifications at Federal Acquisition Regulation (FAR) 52.212-3 (see FAR 52.212-3(b) for those representations and certifications that the offeror shall complete electronically);
  - (9) Acknowledgment of Solicitation Amendments;
  - (10) Past performance information, when included as an evaluation factor, to include recent and relevant contracts for the same or similar items and other references (including contract numbers, points of contact with telephone numbers and other relevant information); and
  - (11) If the offer is not submitted on the SF 1449, include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.
- (c) Period for acceptance of offers. The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.
- (d) Product samples. When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender's request and expense, unless they are destroyed during preaward testing.
- (e) Multiple offers. Offerors are encouraged to submit multiple offers presenting alternative terms and conditions, including alternative line items (provided that the alternative line items are consistent with FAR subpart 4.10), or alternative commercial products or commercial services for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.
- (f) Late submissions, modifications, revisions, and withdrawals of offers:
- (1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.
- (2)** Any quotation received at the Government office designated in the solicitation after the exact time specified for receipt of quotations is late and will not be considered unless it is received before issuance of award and the Contracting Officer determines that accepting the late quotation would not unduly delay the acquisition.
- (3)** If an emergency or unanticipated event interrupts normal Government processes so that quotations cannot be received at the Government office designated for receipt of quotations by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of quotations will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(g) Contract award (not applicable to Invitation for Bids). The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. ## 52.212-2 EVALUATION--COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (NOV 2021)

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conform(s) to the solicitation, price and other factors considered. A Lowest Price Technically Acceptable (LPTA) evaluation, in accordance with (IAW) FAR 15.101-2, will be conducted. All offers will be evaluated to determine technical acceptability. Award will be made to the lowest price offeror that is determined to be technically acceptable. In addition to price, the Government will evaluate technical acceptability factors in accordance with the evaluation criteria contained in this solicitation.

### 1.0 EVALUATION FACTORS

1.1 The quotation shall consist of: (1) Technical Acceptability, and (2) Price Information. The award will be made to the lowest priced technically acceptable offeror, with acceptable Past Performance.

1.2 Vendors will be required to submit a quote that will be evaluated in accordance with the specifications and provisions of the solicitation. Vendors are reminded to submit technical description as specified in FAR 52.212-1(b)(4) and the Addendum to 52.212-1.

1.3 Quotations will be evaluated as follows:

1.3.1 TECHNICAL ACCEPTABILITY

1.3.2 PRICE

1.4 The Government reserves the right to award on initial offers. The Government is not obligated to seek completion or clarification of technical and past performance information.

### 2.0 FACTOR 1: TECHNICAL ACCEPTABILITY

2.1 Technical: Quotations submitted by each vendor will be evaluated in accordance with the specifications provided in the solicitation, FAR 52.212-1 Instruction to Offerors, and Addendum to FAR 52.212-1 and determined

to be either acceptable or unacceptable. Failure to include pricing for all line items may be cause for rejection of the quote for all line items.

2.2 The Offeror must address the specifications in sufficient detail so that the Government can reasonably determine that the Offeror possesses the ability to successfully perform the contract. The Government will not give any favorable consideration, preference, "extra credit," or other positive evaluation to any matters contained in a section of the vendor's quote, which could be construed to exceed the minimum requirements in the specifications included in the solicitation.

2.3 Technical Evaluation Ratings (Rating: Description)

2.3.1 Acceptable: Submission clearly meets the minimum requirements of the solicitation.

2.3.2 Unacceptable: Submission does not clearly meet the minimum requirements of the solicitation.

2.4 Offers that simply state they are in compliance, may be considered Unacceptable.

2.5 Technical submissions that do not meet the minimum requirements will be rated as "Unacceptable." If the technical submittal is determined "Unacceptable," it renders the entire quote technically unacceptable and will no longer be considered for further competition or award.

### 3.0 FACTOR 2: PRICE

3.1 The prices quoted shall be in accordance with the solicitation, and shall be held firm for ninety (90) days.

3.2 All quoted prices will be evaluated on the basis of price reasonableness, to determine that the offered price(s) are fair and reasonable, in accordance with FAR 13.106-3 and FAR 15.404-1(b).

3.3 The vendor shall submit one (1) signed copy of the completed SF 1449, and if applicable, executed copies of Amendments. The offeror's price quotation shall include the unit price and extended unit prices for each CLIN. Vendors shall include pricing for all line items listed. Failure to do this may be cause for rejection of the quote for all line items.

3.4 Vendors responding to this solicitation are advised that, prior to award, the government may request vendors to submit additional information/data to support price reasonableness such as copies of paid invoices for the same or similar items, sales history for the same or similar items, price list with effective date and/or copies of catalog pages along with any applicable discounts. Failure to submit the requested information may result in disqualification of the submitted quote.

### 4.0 SELECTION

4.1 The Government intends to evaluate quotations and issue an award using the procedures of FAR Part 13.5, Simplified Procedures for Certain Commercial Items. Upon completion of the above, the Government intends to issue a single award for all items. The Government reserves the right to not issue an award if it is not in the best interest of the Government.

4.2 The Government reserves the right to award on initial offers. The Government intends to award the contract without discussions. The establishment of a competitive range is not anticipated. Accordingly, each Offeror should submit its most favorable terms from a Price and non-price standpoint. However, the Government reserves the right to establish a competitive range and conduct discussions if later determined to be necessary.

(b) Options. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(iii) The Government will evaluate offers in accordance with the policies and procedures of FAR Part 25. For line items covered by the WTO GPA, the Government will evaluate offers of U.S.-made or designated country end products without regard to the restrictions of the Buy American statute. The Government will consider for award only offers of U.S.-made or designated country end products unless the Contracting Officer determines that there are no offers for such products or that the offers for such products are insufficient to fulfill the requirements of the solicitation.

(h) *Certification Regarding Responsibility Matters (Executive Order 12689)*. (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals--

(1) [ \_\_\_\_ ] Are, [ \_\_\_\_ ] are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) [ \_\_\_\_ ] Have, [ \_\_\_\_ ] have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery,

bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property; and

(3) [ \_\_\_\_ ] Are, [ \_\_\_\_ ] are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) [ \_\_\_\_ ] Have, [ \_\_\_\_ ] have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at 9.104-5(a)(2) for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals Contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126). (iv) The compensation (wage and fringe benefits) plan for all service employees performing work under the contract is the same as that used for these employees and equivalent employees servicing commercial customers.

(3) If paragraph (k)(1) or (k)(2) of this clause applies—

(i) If the offeror does not certify to the conditions in paragraph (k)(1) or (k)(2) and the Contracting Officer did not attach a Service Contract Labor Standards wage determination to the solicitation, the offeror shall notify the Contracting Officer as soon as possible; and

(ii) The Contracting Officer may not make an award to the offeror if the offeror fails to execute the certification in paragraph (k)(1) or (k)(2) of this clause or to contact the Contracting Officer as required in paragraph (k)(3)(i) of this clause.

The offeror will forward one of the following, within 24 hours of request by the contracting officer, to demonstrate that the material being offered was previously owned by the Government (offeror check which one applies):

[ ] For national or local sales, conducted by sealed bid, spot bid or auction methods, a solicitation/Invitation For Bid and corresponding DLA Disposition Services Form 1427, Notice of Award, Statement and Release Document.

This procurement note only applies to offers of Government surplus material. Offers of commercial surplus, manufacturer's overruns, residual inventory resulting from terminated Government contracts, and any other material that meets the technical requirements in the solicitation but was not previously owned by the Government will be evaluated in accordance with the DLAD procurement note L04, Offers for Part Numbered Items.

If requested by the contracting officer, the offeror shall furnish sample units, in the number specified, to the contracting officer or to another location specified by the contracting officer, within 10 days after the contracting officer's request. The samples will be furnished at no cost to the Government. All such samples not destroyed in evaluation will be returned at the offeror's expense. The samples will be evaluated for form, fit, and function with subassembly, assembly, or equipment with which the items are to be used. End items furnished under any contract award to the offeror furnishing the samples can include the returned samples, and all acceptable end items will have a configuration identical to the samples. If specific tests of the samples' performance are made by the Government, the offeror will be furnished the results of such tests prior to a contract being entered into. In addition to any other inspection examinations and tests required by the contract, the performance of the end items will be required to be as good as that of the samples submitted.

In the event of award, the contractor will be responsible for providing material that is in full compliance with all requirements in the contract or order. The surplus material to be furnished must meet the requirements of the current contract or order, whether or not the material met Government requirements in existence at the time the material was initially manufactured or sold to the Government. If higher-level contract quality requirements apply to the material being acquired, those requirements do not apply to surplus material furnished under this contract.

### **C07 Warstopper Program Material Buffer Availability (JAN 2021)**

(1) The Warstopper Program Material Buffer (Buffer) helps decrease lead times for raw material to support defense contracts relating to military systems with a wartime requirement. The Worldwide Web Industrial Capabilities Program (WICAP) website (<https://ibms.dape.dla.mil/wicap>) identifies current material buffer suppliers and materials. If buffer material is unavailable or the quantity of material is inadequate to complete the requirement, the contractor shall contact the contracting officer representative (COR) for guidance. When a buffer is established, the contractor shall use the following process to submit requests for buffer material. A defense contractor (or sub-tier contractor supporting a prime contractor) with a current, active U.S. Government contract shall submit a valid request to use buffer material to the COR for the respective buffer material. The COR will review the submittal and approve or disapprove the request. The contractor shall include the following information in the request:

- (a) Requestor's name;
- (b) U.S. Government contract number;
- (c) Defense Priorities and Allocations System (DPAS) rating;
- (d) Material specification;
- (e) Quantity required;
- (f) Required delivery date; and
- (g) Whether there is a pre-existing supply contract with the material buffer contractor.

(2) If no prior contractual relationship exists between the contractor requesting access to the buffer material and the material buffer contractor, the material buffer contractor is authorized to enter into a contract to provide material from the buffer after the COR approves a valid request. The contractor shall include this action in the monthly report submitted to the COR. When requests exceed the buffer's maximum monthly material availability, the material supplier may negotiate phased delivery of material across the material monthly availability; or the Government COR may prioritize the release of the material at the Government's discretion.

(3) The material price for contractors accessing the material buffer is the material price identified in any pre-existing contract with the material buffer contractor. The material price for contractors with no pre-existing contract with the material buffer contractor is the standard (not spot market levels) pricing for the material. Contractors using the buffer are solely responsible for costs of using the buffer, and the Government has no liability either for these costs or for delays or other effects arising from the use of the buffer.

(4) The buffer material provided is not Government furnished material, but is a normal vendor-to-vendor transaction with all applicable warranties and guarantees provided through the commercial transaction.

#### **C14 Correction of Nonconforming Packaging or Marking (MAY 2020)**

(1) The Government may correct nonconforming packaging or marking for receipts of DLA- owned materiel if the estimated costs of correction are \$1,000 or less. The contracting officer will advise the contractor of the discrepancy and that the Government has corrected the packaging or marking. The contracting officer will make a determination concerning appropriate reimbursement by the contractor for the Government's costs to correct the deficiencies. Upon determining that reimbursement is required, the contracting officer will send a notice to the contractor. Upon receipt of notice from the contracting officer, the contractor shall reimburse the Government for the costs incurred by the Government to correct the deficiencies.

(2) If the estimated costs of correction for receipts of DLA-owned materiel are more than \$1,000, the contracting officer will advise the contractor of the discrepancy and have the materiel returned to the contractor for correction/resubmittal; or, if there are urgent requirements, have the Government remediate the discrepancy at the contractor's expense. If the Government remediates the discrepancy, the contracting officer will make a determination concerning appropriate reimbursement by the contractor for the Government's costs to correct the deficiencies. Upon determining that reimbursement is required, the contracting officer will send a notice to the contractor. Upon receipt of notice from the contracting officer, the contractor shall reimburse the Government for the costs incurred by the Government to correct the deficiencies.

#### **C20 Vendor Shipment Module (VSM) (SEP 2021)**

(1) The DLA Vendor Shipment Module (VSM) is a web-based system available to DLA contractors for obtaining current shipping addresses, two-dimensional bar coded shipping labels in accordance with MIL-STD-129, bills of lading, packing lists, and other shipping documentation. Contractors using VSM do not need to contact the transportation office prior to shipping items. Contractors can use VSM to print labels for f.o.b. destination contracts and to print labels and arrange for shipping for f.o.b. origin contracts.

(2) To obtain information for contracts administered by DLA or to register as a VSM user, the contractor shall contact the DLA VSM Helpdesk at (800) 456-5507 or via email to [delivery@dla.mil](mailto:delivery@dla.mil).

(a) Before contacting the Government to advise that material is ready to ship, the contractor shall complete its VSM profile, to include regular business hours and observed holidays. The Government may request reimbursement for occurrences when the Government sends carrier equipment but is unable to pick-up a shipment because the material was unavailable or the contractor facility was closed.

(3) To obtain information for contracts administered by DCMA, the contractor shall contact the DCMA VSM Helpdesk at (314) 331-5573 or [vsm.shipments@dcma.mil](mailto:vsm.shipments@dcma.mil).

#### **E05 Product Verification Testing (MAY 2020)**

(1) Product verification testing (PVT) under this procurement note will only apply when the contracting officer specifically invokes it in writing. The contracting officer may invoke PVT at or after contract award. If the contracting officer invokes PVT at contract award, the contract will explicitly state this testing requirement. If the contracting officer invokes PVT after contract award, the contracting officer shall notify the contractor and the cognizant DCMA ACO. The Government will perform PVT testing at a Government-designated testing laboratory.

(2) The contractor shall not ship or deliver any material until it receives notification of the acceptable PVT results, unless the contracting officer directs it to do so in writing. The Government will provide the PVT results to the contractor within 20 business days after receipt at the Government testing facility, unless the Government specifies otherwise in writing.

(3) The contractor shall provide and maintain an inspection system acceptable to the Government in accordance with FAR Clause 52.246-2 or 52.246-3; and maintain and make available all records evidencing those details if

requested by the Government. When the Government finds evidence of risk associated with the contractor's sampling process, the Government may witness and evaluate the contractor's sampling process. The contractor shall randomly select samples from the production lot(s), unless the contracting officer specifies otherwise in writing. The contractor shall ship the selected PVT samples with a copy of the system of record receiving report (i.e., WAWF, DD Form 250, or commercial shipping document) and the contractor's signed DD Form 1222. The contractor shall prepare the shipping container(s) by marking the external packages in bold letters, "Product Verification Test Samples – Do Not Post to Stock," Contract Number [contractor insert] and Lot/Item Number [contractor insert]" adjacent to the MIL-STD-129 (latest revision) identification markings. The contractor shall use a hard copy of the system of record receiving report as a packing list, in accordance with DFARS Appendix F. The contractor shall mark the exterior of the shipping container in accordance with MIL-STD-129 (latest revision), paragraph 5.11. The contractor shall send samples by traceable means (e.g., certified or registered mail, United Parcel Service, Federal Express). The contractor shall include the following in the interior package:

- (a) Hard copies of the contract;
- (b) Material certifications/process operation sheets; and
- (c) Drawings used to manufacture the units and return shipping information.
- (4) The Government will return samples that pass testing and are not destroyed during evaluation to the contractor at the Government's expense for the contractor to include as part of the total contract quantity to be delivered under the contract. The contractor and Government may agree to dispose of samples not destroyed when the cost of the item does not justify the shipping expense. If the Government does not return approved samples that pass testing to the contractor, the Government will consider those samples as part of the contract quantity for payment and delivery.
- (5) If samples fail testing, the Government may reject the entire contract lot from which the contractor took the samples. The Government may, at its discretion, retain samples that fail testing without obligation to the contractor.

#### **G01 Additional Wide Area Workflow (WAWF) Information (AUG 2017)**

Contractors shall include the Transportation Control Number (TCN) and carrier shipment tracking information when submitting the DD250/iRAPT Receiving Report in Wide Area Workflow (WAWF) in order to assist with material inspection and acceptance.

#### **H01 Qualified Products List (QPL) for Federal Supply Class (FSC) 5935 Connector Assemblies and Contacts (SEP 2016)**

When an offeror includes connectors and electrical contacts manufactured by different qualified sources, the offeror agrees to provide to the contracting officer or quality assurance representative, prior to delivery, documentation signed by an authorized contractor representative responsible for quality assurance, demonstrating that the connectors and electrical contacts in question were manufactured by/obtained from a current QPL source(s). The signed documentation must as a minimum include:

- (1) Name of the quality assurance representative;
- (2) Name of connector manufacturer(s);
- (3) Manufacturer(s) part numbers (P/N);
- (4) Name of contact manufacturer(s); and
- (5) The Commercial and Government Entity (CAGE) code of the manufacturer.

#### **H05 Bilateral Simplified Indefinite-Delivery Contract (SIDC) (SEP 2021)**

- (1) The Government will award a bilateral SDC resulting from this request for quote (RFQ) to the responsible offeror whose quote conforms to the terms and conditions in the (RFQ) and will be most advantageous to the Government, after considering price and other factors. The awardee shall sign the SIDC, which creates a binding contract. The contractor shall return the signed SIDC to the contracting officer.
- (2) Pricing of orders. The unit price for orders is based on the price for the quantity range that will cover the total quantity on the order, regardless of destination.
- (3) Price evaluation will be based on the price quoted for the estimated annual demand in the schedule.
- (4) Once the guaranteed minimum quantity stated in the SIDC is met, the Government is under no obligation to place additional orders. The Government may place additional orders for the period of performance stated in the SIDC, effective from the award date of the SIDC. All additional orders will reference the SIDC, which documents the terms and conditions applicable to each order. The SIDC states the maximum value of each task or delivery

order under the SIDC. The maximum value of the SIDC will not exceed the SAT; or, for SIDCs using FAR subpart 13.5, the thresholds in 13.500(a).

#### **H10 Awardee Requires No Access to DLA Controlled Technical Data or Information for Contract Performance (FEB 2020)**

Awardee has confirmed it will not require access to DLA controlled technical data or information for contract performance, and it will provide items that conform to the current revision of applicable technical data.

#### **L06 Agency Protests (DEC 2016)**

Interested parties may file an agency level protest with the contracting officer or may request an independent review by the chief of the contracting office (CCO). Independent review by the CCO is an alternative to consideration by the contracting officer and is not available as an appellate review of a contracting officer decision on a protest previously filed with the contracting officer. Absent a clear indication of the intent to file an agency level protest with the CCO for independent review, protests will be presumed to be protests to the contracting officer.

#### **L08 Use of Supplier Performance Risk System (SPRS) in Past Performance Evaluations (JUN 2020)**

(1) The Government will use the Supplier Performance Risk System (SPRS) (<https://www.sprs.csd.disa.mil/>) (formerly Past Performance Information Retrieval System – Statistical Reporting (PIRS-SR)) to evaluate suppliers' past performance.

(2) SPRS collects quality and delivery data on previously awarded contracts and orders from existing Department of Defense reporting systems to classify each supplier's performance history by Federal Supply Class (FSC) and product or service code (PSC). The SPRS application provides the contracting officer quantifiable past performance information regarding a supplier's quality and delivery performance for the FSC and PSC of the supplies the Government is purchasing.

(3) The contracting officer will use the quality and delivery classifications identified for a supplier in SPRS to evaluate a supplier's past performance in conjunction with the supplier's references (if requested). The Government will use this past performance information in accordance with the basis for award stated in the solicitation.

(4) SPRS generates classifications daily for each contractor. The SPRS Software User's Guide for Awardees/Contractors ([https://www.sprs.csd.disa.mil/pdf/SPRS\\_Awardee.pdf](https://www.sprs.csd.disa.mil/pdf/SPRS_Awardee.pdf)) and the SPRS Government User Guide ([https://www.sprs.csd.disa.mil/pdf/SPRS\\_Government.pdf](https://www.sprs.csd.disa.mil/pdf/SPRS_Government.pdf)) provide instructions for accessing SPRS classifications. Contractors have access to SPRS for their own classifications only. Suppliers are encouraged to review their own classifications; the SPRS reporting procedures and classification methodology detailed in the SPRS Software User's Guide for Awardees/Contractors ([https://www.sprs.csd.disa.mil/pdf/SPRS\\_Awardee.pdf](https://www.sprs.csd.disa.mil/pdf/SPRS_Awardee.pdf)); and the SPRS Evaluation Criteria ([https://www.sprs.csd.disa.mil/pdf/SPRS\\_DataEvaluationCriteria.pdf](https://www.sprs.csd.disa.mil/pdf/SPRS_DataEvaluationCriteria.pdf)). The SPRS Software User's Guide for Awardees/Contractors ([https://www.sprs.csd.disa.mil/pdf/SPRS\\_Awardee.pdf](https://www.sprs.csd.disa.mil/pdf/SPRS_Awardee.pdf)) provides the method to challenge a rating generated by SPRS.

#### **L09 Reverse Auction (OCT 2016)**

The Contracting Officer may utilize reverse auctioning to conduct price discussions. If the Contracting Officer does not conduct a reverse auction, award may be made on initial offers or following discussions. If the Contracting Officer decides to use line reverse auctioning to conduct price negotiations, the Contracting Officer will notify Offerors of this decision and the following applies:

- (1) The contracting officer may use reverse auction as the pricing technique during discussions to receive the final offered prices from each offeror.
- (2) During each round of reverse auction, the system displays the lowest offer price(s) unless the auction instructions are different. All offerors and authorized auction users see the displayed lowest price(s). This disclosure is anonymous and a generic identifier displays for the offeror. Generic identifiers include designators such as "offer A" or "lowest-priced offeror." By submitting a proposal in response to the solicitation, offerors agree to participate in the reverse auction and that their prices may be disclosed, including to other offerors, during the reverse auction.
- (3) An offeror's final auction price at the close of the reverse auction is considered its final price proposal revision. No price revisions will be accepted after the close of the reverse auction, unless the contracting officer decides that further discussions are needed and final price proposal revisions are again requested in accordance with Federal Acquisition Regulation (FAR) 15.307, or the contracting officer determines that it would be in the best interest of the Government to re-open the auction.
- (4) The contracting officer identifies participants to the DLA commercial reverse auction service provider. To be eligible for award and participate, the offeror must agree with terms and conditions of the entire solicitation and the commercial reverse auction service. The reverse auction pricing tool system administrator sends auction information in an email. The reverse auction system designates offers as "lead," meaning the current low price in that auction, or "not lead," meaning not the current low price in that auction. In the event of a tie offer, the reverse auction provider's system designates the first offer of that price as "lead" and the second or subsequent offer of that price as "not lead." If a tie offer is submitted and no evaluation factors other than price were identified in the solicitation or a low-price technically acceptable source selection is being used, the "Not Lead" offeror that submitted the tie offer must offer a changed price; otherwise its offer will be ineligible for award. If evaluation factors in addition to price were listed in the solicitation and a tradeoff source selection is being used, tie offers that are "Not Lead" will be considered and evaluated.
- (5) Offerors unable to enter pricing through the commercial reverse auction service provider's system during a reverse auction must notify the contracting officer or designated representative immediately. The contracting officer may, at their sole discretion, extend or re-open the reverse auction if the reason for the offeror's inability to enter pricing is determined to be without fault on the part of the offeror and outside the offeror's control.
- (6) Training. The commercial reverse auction service provider or government representative conducts training for offerors. Offerors receive training through written material, the commercial reverse auction service provider's website, or other means. Trainers name employees successfully completing the training as a "Trained Offeror." Only trained offerors may engage in a reverse auction. The contracting officer reserves the right to remove the "trained offeror" title from anyone who fails to obey the solicitation or commercial reverse auction service provider terms and conditions.

### **L31 Additive Manufacturing (JUN 2018)**

(1) Additive manufacturing (AM) is a process of joining materials to make objects from three dimensional (3D) model data, usually layer upon layer, as opposed to subtractive manufacturing methodologies, which remove material from areas where it is not desired, or other traditional manufacturing technologies, such as molding or stamping.

(2) Unless AM is specifically authorized in the solicitation/contract, quotes/offers may not include parts or supplies made using the additive manufacturing process. The Government will not evaluate offers that include an item or items produced using AM, and such offers are not eligible for award for the current procurement. A quoter/offeror proposing to supply an AM-produced item may submit a request to the contracting officer for approval of the item for evaluation by the Engineering Support Activity (ESA) for acceptability for future procurements of the same items.

(3) If an item produced using AM is presented to the Government for inspection and acceptance that was not authorized in the solicitation/contract, the Government may reject the item as nonconforming.

**M05 Evaluation Factor for Unused Former Government Surplus Property (SEP 2016)**

- (1) All offers for unused former Government surplus property shall have a \$200 evaluation factor.
- (2) All offers for CSI require evaluation by the ESA(s). An evaluation factor of \$600 shall be applied for coordination with each ESA.
- (3) If the contracting officer cannot determine acceptability and coordinates with the ESA(s) on other than CSI, an evaluation factor of \$600 shall be applied for each ESA.

**M06 Evaluation of Offers for Part Numbered Items (SEP 2016)**

Offers of alternate product will not be evaluated for the contract action if:

- (1) The solicitation is automated;
- (2) It does not meet the dollar threshold for savings, after an evaluation factor of \$600 is applied for coordination with each ESA; or
- (3) When the time proposed for award does not permit evaluation and delay of award would adversely affect the Government.
