

Owens Corning Product Salient Characteristics to be considered for offers of “equal” products:

- a. The intent of the contract is to provide a “roofing system” wherein, the incorporated products are designed to work together on all levels – mismatched and hodgepodge products are not desired.
- b. Premium Architectural Asphalt Shingle.
- c. Polymer Modified Asphalt.
- d. Class A Type I - ASTM D3018 (Type 1).
- e. Standard Specifications - ASTM D3462.
- f. Fire Resistance Class A – ASTM E108/UL790.
- g. Impact Resistance Class 4 – UL 2218.
- h. Wind Resistance – minimum target speed of 130 mph as measured by ASTM.
- i. 40-year lifetime warranty.
