*** End of Narrative A0000 ***

1. Description of Supplies/Services:

This solicitation is to procure the follow-on effort entitled Integrated Commercial Intrusion Detection System (ICIDS-V) Production type contract requirements, i.e., ICIDS-VI.

2. Program Objective/Needs:

There are currently 75 Army Installations physically protected by ICIDS using different iterations of DAQ technologies and are autonomously monitored at each Installation. Modernization of each Army Installations ICIDS is based on a 10-year cycle. This effort will include the physical security for Arms, Ammunition, & Explosives (AA&E), chemicals, and High Value Equipment. High Risk Target (HRT) and Mission Essential Vulnerable Area (MEVA) should be added as these areas are ones that need to be protected. Each Site is unique on their HRT and MEVA Lists, so take this into consideration for your potential offers.

The immediate goal is to network groupings of Army Installations under a regional hub while modernizing ICIDS systems for Army Installations scheduled for upgrades without interruption of Installations physical security operations. When regional monitoring is implemented, the capability must be able to integrate with all existing ICIDS versions.

3. Delivery Schedule:

The resulting contract shall be Indefinite Delivery Indefinite Quantity (IDIQ) contract with an ordering period starting from date of award in Fiscal Year (FY) 2023, running through FY 2028 consisting of one base year and four (4) one-year optional ordering periods. This will enable Product Manager Force Protection Systems (PM FPS) to meet current and emerging requirements.

4. Quality Assurance Requirements:

All inspection and acceptance will be conducted in accordance with (IAW) the International Organization for Standardization (ISO) 9001:2015, or an equivalent quality system that is the most recently accepted system by the Government, and within the approved Statement of Work, Section J, Attachment 0001. The goal is to minimize the costs, schedule, and performance risks throughout the ICIDS-VI lifecycle.

5. Type of Contract:

The Contract will be a single-award IDIQ Firm Fixed-Price (FFP) and Cost, No-Fee, type contract with a projected ceiling of \$88.5M that includes all hardware; software; spares; repairs / refurbishments; and engineering and technical services in support of ICIDS-VI.

6. Format of the Contract:

The contract will contain FFP Contract Line Items (CLINs) and one cost, no-fee type CLIN for the base and each optional ordering period. CLIN X045 was not used and is reserved for Delivery Order contingencies. The FFP portion of the resultant contract will cover the procurement of any hardware units/components; inspection; evaluation; and proposal costs of each component based on Government approval; and the Technical/Engineering services (e.g., studies, designs, hardware fabrication, and tests). The Cost, No Fee, CLIN is for travel costs. Note: Offerors will not need to price the Service CLINs 0053, 1053, 2053, 3053, and 4053 at this time. The price for these CLINs will be priced and negotiated later at the delivery order-level if applicable.

7. Deliverables. As part of this solicitation, there are 53 deliverables, A001 through A053, with A014 not being used. These are Not Separately Priced (NSP) deliverables. These non-priced CDRLS are applicable to the one-year base and optional ordering periods. See Section B and the associated narratives and the related CDRLS, Exhibit A, at Section J.

Made means--

(1) When used in relation to any invention other than a plant variety, the conception or first actual reduction to practice of the invention; or

Practical application means to manufacture, in the case of a composition of product; to practice, in the case of a process or method; or to operate, in the case of a machine or system; and, in each case, under such conditions as to establish that the invention is being utilized and that its benefits are, to the extent permitted by law or Government regulations, available to the public on reasonable terms.

Subject invention means any invention of the Contractor made in the performance of work under this contract.

(b) Contractor's rights. (1) Ownership. The Contractor may retain ownership of each subject invention throughout the world in accordance with the provisions of this clause.

(2) License. (i) The Contractor shall retain a nonexclusive royalty-free license throughout the world in each subject invention to which the Government obtains title, unless the Contractor fails to disclose the invention within the times specified in paragraph (c) of this clause. The Contractor's license extends to any domestic subsidiaries and affiliates within the corporate structure of which the Contractor is a part, and includes the right to grant sublicenses to the extent the Contractor was legally obligated to do so at contract award. The license is transferable only with the written approval of the agency, except when transferred to the successor of that part of the Contractor's business to which the invention pertains.

(ii) The Contractor's license may be revoked or modified by the agency to the extent necessary to achieve expeditious practical application of the subject invention in a particular country in accordance with the procedures in FAR 27.302(i)(2) and 27.304-1(f).

(c) Contractor's obligations. (1) The Contractor shall disclose in writing each subject invention to the Contracting Officer within 2 months after the inventor discloses it in writing to Contractor personnel responsible for patent matters. The disclosure shall identify

the inventor(s) and this contract under which the subject invention was made. It shall be sufficiently complete in technical detail to convey a clear understanding of the subject invention. The disclosure shall also identify any publication, on sale (i.e., sale or offer for sale), or public use of the subject invention, or whether a manuscript describing the subject invention has been submitted for publication and, if so, whether it has been accepted for publication. In addition, after disclosure to the agency, the Contractor shall promptly notify the Contracting Officer of the acceptance of any manuscript describing the subject invention for publication and any on sale or public use.

(2) The Contractor shall elect in writing whether or not to retain ownership of any subject invention by notifying the Contracting Officer within 2 years of disclosure to the agency. However, in any case where publication, on sale, or public use has initiated the 1-year statutory period during which valid patent protection can be obtained in the United States, the period for election of title may be shortened by the agency to a date that is no more than 60 days prior to the end of the statutory period.

(3) The Contractor shall file either a provisional or a nonprovisional patent application or a Plant Variety Protection Application on an elected subject invention within 1 year after election. However, in any case where a publication, on sale, or public use has initiated the 1-year statutory period during which valid patent protection can be obtained in the United States, the Contractor shall file the application prior to the end of that statutory period. If the Contractor files a provisional application, it shall file a nonprovisional application within 10 months of the filing of the provisional application. The Contractor shall file patent applications in additional countries or international patent offices within either 10 months of the first filed patent application (whether provisional or nonprovisional) or 6 months from the date permission is granted by the Commissioner of Patents to file foreign patent applications where such filing has been prohibited by a Secrecy Order.

(4) The Contractor may request extensions of time for disclosure, election, or filing under paragraphs (c)(1), (c)(2), and (c)(3) of this clause.

(d) Government's rights--(1) Ownership. The Contractor shall assign to the agency, on written request, title to any subject invention--

(i) If the Contractor fails to disclose or elect ownership to the subject invention within the times specified in paragraph (c) of this clause, or elects not to retain ownership; provided, that the agency may request title only within 60 days after learning of the Contractor's failure to disclose or elect within the specified times.

(ii) In those countries in which the Contractor fails to file patent applications within the times specified in paragraph (c) of this clause; provided, however, that if the Contractor has filed a patent application in a country after the times specified in paragraph (c) of this clause, but prior to its receipt of the written request of the agency, the Contractor shall continue to retain ownership in that country.

(iii) In any country in which the Contractor decides not to continue the prosecution of any application for, to pay the maintenance fees on, or defend in reexamination or opposition proceeding on, a patent on a subject invention.

(2) License. If the Contractor retains ownership of any subject invention, the Government shall have a nonexclusive, nontransferable, irrevocable, paid-up license to practice, or have practiced for or on its behalf, the subject invention throughout the world. The license shall include the right of the Government to sublicense foreign governments, their nationals and international organizations pursuant to the following treaties or international agreements: None Listed at this time--To Be Determined

(e) Contractor action to protect the Government's interest. (1) The Contractor shall execute or have executed and promptly deliver to the agency all instruments necessary to--

(i) Establish or confirm the rights the Government has throughout the world in those subject inventions in which the Contractor elects to retain ownership; and

(ii) Assign title to the agency when requested under paragraph (d) of this clause and to enable the Government to obtain patent protection and plant variety protection for that subject invention in any country.

(2) The Contractor shall require, by written agreement, its employees, other than clerical and nontechnical employees, to disclose promptly in writing to personnel identified as responsible for the administration of patent matters and in the Contractor's format, each subject invention in order that the Contractor can comply with the disclosure provisions of paragraph (c) of this clause, and to execute all papers necessary to file patent applications on subject inventions and to establish the Government's rights in the subject inventions. The disclosure format should require, as a minimum, the information required by paragraph (c)(1) of this clause. The Contractor shall instruct such employees, through employee agreements or other suitable educational programs, as to the importance of reporting inventions in sufficient time to permit the filing of patent applications prior to U.S. or foreign statutory bars.

(3) The Contractor shall notify the Contracting Officer of any decisions not to file a nonprovisional patent application, continue the prosecution of a patent application, pay maintenance fees, or defend in a reexamination or opposition proceeding on a patent, in any country, not less than 30 days before the expiration of the response or filing period required by the relevant patent office.

(4) The Contractor shall include, within the specification of any United States nonprovisional patent or plant variety protection

application and any patent or plant variety protection certificate issuing thereon covering a subject invention, the following statement, "This invention was made with Government support under (identify the contract) awarded by (identify the agency). The Government has certain rights in the invention."

(f) Reporting on utilization of subject inventions. The Contractor shall submit, on request, periodic reports no more frequently than annually on the utilization of a subject invention or on efforts at obtaining utilization of the subject invention that are being made by the Contractor or its licensees or assignees. The reports shall include information regarding the status of development, date of first commercial sale or use, gross royalties received by the Contractor, and other data and information as the agency may reasonably specify. The Contractor also shall provide additional reports as may be requested by the agency in connection with any march-in proceeding undertaken by the agency in accordance with paragraph (h) of this clause. The Contractor also shall mark any utilization report as confidential/proprietary to help prevent inadvertent release outside the Government. As required by 35 U.S.C. 202(c)(5), the agency will not disclose that information to persons outside the Government without the Contractor's permission.

(g) Preference for United States industry. Notwithstanding any other provision of this clause, neither the Contractor nor any assignee shall grant to any person the exclusive right to use or sell any subject invention in the United States unless the person agrees that any products embodying the subject invention or produced through the use of the subject invention will be manufactured substantially in the United States. However, in individual cases, the requirement for an agreement may be waived by the agency upon a showing by the Contractor or its assignee that reasonable but unsuccessful efforts have been made to grant licenses on similar terms to potential licensees that would be likely to manufacture substantially in the United States, or that under the circumstances domestic manufacture is not commercially feasible.

(h) March-in rights. The Contractor acknowledges that, with respect to any subject invention in which it has retained ownership, the agency has the right to require licensing pursuant to 35 U.S.C. 203 and 210(c), and in accordance with the procedures in 37 CFR 401.6 and any supplemental regulations of the agency in effect on the date of contract award.

(i) Special provisions for contracts with nonprofit organizations. If the Contractor is a nonprofit organization, it shall--

(1) Not assign rights to a subject invention in the United States without the written approval of the agency, except where an assignment is made to an organization that has as one of its primary functions the management of inventions, provided, that the assignee shall be subject to the same provisions as the Contractor;

(2) Share royalties collected on a subject invention with the inventor, including Federal employee co-inventors (but through their agency if the agency deems it appropriate) when the subject invention is assigned in accordance with 35 U.S.C. 202(e) and 37 CFR 401.10;

(3) Use the balance of any royalties or income earned by the Contractor with respect to subject inventions, after payment of expenses (including payments to inventors) incidental to the administration of subject inventions for the support of scientific research or education; and

(4) Make efforts that are reasonable under the circumstances to attract licensees of subject inventions that are small business concerns, and give a preference to a small business concern when licensing a subject invention if the Contractor determines that the small business concern has a plan or proposal for marketing the invention which, if executed, is equally as likely to bring the invention to practical application as any plans or proposals from applicants that are not small business concerns; provided, that the Contractor is also satisfied that the small business concern has the capability and resources to carry out its plan or proposal. The decision whether to give a preference in any specific case will be at the discretion of the Contractor.

(5) Allow the Secretary of Commerce to review the Contractor's licensing program and decisions regarding small business applicants, and negotiate changes to its licensing policies, procedures, or practices with the Secretary of Commerce when the Secretary's review discloses that the Contractor could take reasonable steps to more effectively implement the requirements of paragraph (i)(4) of this clause.

(j) Communications. All Communications should flow the Designated Contracting Officer

(k) Subcontracts. (1) The Contractor shall include the substance of this clause, including this paragraph (k), in all subcontracts for experimental, developmental, or research work to be performed by a small business concern or nonprofit organization.

(2) The Contractor shall include in all other subcontracts for experimental, developmental, or research work the substance of the patent rights clause required by FAR Subpart 27.3.

(3) At all tiers, the patent rights clause must be modified to identify the parties as follows: references to the Government are not changed, and the subcontractor has all rights and obligations of the Contractor in the clause. The Contractor shall not, as part of the consideration for awarding the subcontract, obtain rights in the subcontractor's subject inventions.

(4) In subcontracts, at any tier, the agency, the subcontractor, and the Contractor agree that the mutual obligations of the parties created by this clause constitute a contract between the subcontractor and the agency with respect to the matters covered by the clause; provided, however, that nothing in this paragraph is intended to confer any jurisdiction under the Contract Disputes statute in

COST ACCOUNTING STANDARDS

JUN/2020

(a) Unless the contract is exempt under 48 CFR 9903.201-1 and 9903.201-2, the provisions of 48 CFR Part 9903 are incorporated herein by reference and the Contractor, in connection with this contract, shall--

(1) (CAS-covered Contracts Only) By submission of a Disclosure Statement, disclose in writing the Contractors cost accounting practices as required by 48 CFR 9903.202-1 through 9903.202-5, including methods of distinguishing direct costs from indirect costs and the basis used for allocating indirect costs. The practices disclosed for this contract shall be the same as the practices currently disclosed and applied on all other contracts and subcontracts being performed by the Contractor and which contain a Cost Accounting Standards (CAS) clause. If the Contractor has notified the Contracting Officer that the Disclosure Statement contains trade secrets and commercial or financial information which is privileged and confidential, the Disclosure Statement shall be protected and shall not be released outside of the Government.

(2) Follow consistently the Contractors cost accounting practices in accumulating and reporting contract performance cost data concerning this contract. If any change in cost accounting practices is made for the purposes of any contract or subcontract subject to CAS requirements, the change must be applied prospectively to this contract and the Disclosure Statement must be amended accordingly. If the contract price or cost allowance of this contract is affected by such changes, adjustment shall be made in accordance with paragraph (a)(4) or (a)(5) of this clause, as appropriate.

(3) Comply with all CAS, including any modifications and interpretations indicated thereto contained in 48 CFR Part 9904, in effect on the date of award of this contract or, if the Contractor has submitted certified cost or pricing data, on the date of final agreement on price as shown on the Contractors signed certificate of current cost or pricing data. The Contractor shall also comply with any CAS (or modifications to CAS) which hereafter become applicable to a contract or subcontract of the Contractor. Such compliance shall be required prospectively from the date of applicability to such contract or subcontract.

(4)(i) (Agree to an equitable adjustment as provided in the Changes clause of this contract if the contract cost is affected by a change which, pursuant to paragraph (a)(3) of this clause, the Contractor is required to make to the Contractors established cost accounting practices.

(ii) Negotiate with the Contracting Officer to determine the terms and conditions under which a change may be made to a cost accounting practice, other than a change made under other provisions of paragraph (a)(4) of this clause; provided that no agreement may be made under this provision that will increase costs paid by the United States.

(iii) When the parties agree to a change to a cost accounting practice, other than a change under subdivision (a)(4)(i) of this clause, negotiate an equitable adjustment as provided in the Changes clause of this contract.

(5) Agree to an adjustment of the contract price or cost allowance, as appropriate, if the Contractor or a subcontractor fails to comply with an applicable Cost Accounting Standard, or to follow any cost accounting practice consistently and such failure results in any increased costs paid by the United States. Such adjustment shall provide for recovery of the increased costs to the United States, together with interest thereon computed at the annual rate established under section 6621(a)(2) of the Internal Revenue Code of 1986 (26 U.S.C. 6621(a)(2)) for such period, from the time the payment by the United States was made to the time the adjustment is effected. In no case shall the Government recover costs greater than the increased cost to the Government, in the aggregate, on the relevant contracts subject to the price adjustment, unless the Contractor made a change in its cost accounting practices of which it was aware or should have been aware at the time of price negotiations and which it failed to disclose to the Government.

(b) If the parties fail to agree whether the Contractor or a subcontractor has complied with an applicable CAS in 48 CFR 9904 or a CAS rule or regulation in 48 CFR 9903 and as to any cost adjustment demanded by the United States, such failure to agree will constitute a dispute under 41 U.S.C. chapter 71, Contract Disputes.

(c) The Contractor shall permit any authorized representatives of the Government to examine and make copies of any documents, papers, or records relating to compliance with the requirements of this clause.

(d) The Contractor shall include in all negotiated subcontracts which the Contractor enters into, the substance of this clause, except paragraph (b), and shall require such inclusion in all other subcontracts, of any tier, including the obligation to comply with all CAS in effect on the subcontractors award date or if the subcontractor has submitted certified cost or pricing data, on the date of final agreement on price as shown on the subcontractors signed Certificate of Current Cost or Pricing Data. If the subcontract is awarded to a business unit which pursuant to 48 CFR 9903.201-2 is subject to other types of CAS coverage, the substance of the applicable clause set forth in subsection 30.201-4 of the Federal Acquisition Regulation (FAR) shall be inserted. This requirement shall apply only to negotiated subcontracts in excess of the lower CAS threshold specified in FAR 30.201-4(b) on the date of subcontract award, except that the requirement shall not apply to negotiated subcontracts otherwise exempt from the requirement to include a CAS clause as specified in 48 CFR 9903.201-1.

Thus, the item or component must have been constructed or the process practiced. Workability is generally established when the item, component, or process has been analyzed or tested sufficiently to demonstrate to reasonable people skilled in the applicable art that there is a high probability that it will operate as intended. Whether, how much, and what type of analysis or testing is required to establish workability depends on the nature of the item, component, or process, and the state of the art. To be considered "developed," the item, component, or process need not be at the stage where it could be offered for sale or sold on the commercial market, nor must the item, component or process be actually reduced to practice within the meaning of Title 35 of the United States Code;

(ii) A computer program has been successfully operated in a computer and tested to the extent sufficient to demonstrate to reasonable persons skilled in the art that the program can reasonably be expected to perform its intended purpose;

(i) Private expense determinations should be made at the lowest practicable level.

(ii) Under fixed-price contracts, when total costs are greater than the firm-fixed-price or ceiling price of the contract, the additional development costs necessary to complete development shall not be considered when determining whether development was at government, private, or mixed expense.

(11) "Developed exclusively with government funds" means development was not accomplished exclusively or partially at private expense.

(12) "Developed with mixed funding" means development was accomplished partially with costs charged to indirect cost pools and/or costs not allocated to a government contract, and partially with costs charged directly to a government contract.

(13) "Form, fit, and function data" means technical data that describe the required overall physical, functional, and performance characteristics (along with the qualification requirements, if applicable) of an item, component, or process to the extent necessary to permit identification of physically and functionally interchangeable items.

(16) "Government purpose rights" means the rights to--

(i) Use, modify, reproduce, release, perform, display, or disclose technical data or computer software within the Government without restriction; and

(17) "Limited rights" means the rights to use, modify, reproduce, release, perform, display, or disclose technical data, in whole or in part, within the Government. The Government may not, without the written permission of the party asserting limited rights, release or disclose the technical data outside the Government, use the technical data for manufacture, or authorize the technical data to be used by another party, except that the Government may reproduce, release, or disclose such data or authorize the use or reproduction of

However, instructions that interfere with or delay the operation of computer software in order to display a restrictive rights legend or other license statement at any time prior to or during use of the computer software, or otherwise cause such interference or delay, shall not be inserted in software that will or might be used in combat or situations that simulate combat conditions, unless the Contracting Officer's written permission to deliver such software has been obtained prior to delivery. Reproductions of technical data, computer software, or any portions thereof subject to asserted restrictions shall also reproduce the asserted restrictions.

provision of this contract concerning inspection and acceptance, the Government may ignore or, at the Contractor's expense, correct or strike a marking if, in accordance with the applicable procedures of those clauses, a restrictive marking is determined to be unjustified.

(2) Nonconforming markings. A nonconforming marking is a marking placed on technical data or computer software delivered or otherwise furnished to the Government under this contract that is not in the format authorized by this contract. Correction of nonconforming markings is not subject to the Validation of Restrictive Markings on Technical Data or the Validation of Asserted RestrictionsComputer Software clause of this contract. If the Contracting Officer notifies the Contractor of a nonconforming marking or markings and the Contractor fails to remove or correct such markings within sixty (60) days, the Government may ignore or, at the Contractor's expense, remove or correct any nonconforming markings.

(i) Relation to patents. Nothing contained in this clause shall imply a license to the Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Government under any patent.

(j) Limitation on charges for rights in technical data or computer software.

(1) The Contractor shall not charge to this contract any cost, including but not limited to, license fees, royalties, or similar charges, for rights in technical data or computer software to be delivered under this contract when--

(2) The limitation in paragraph (j)(1) of this clause--

(i) Includes costs charged by a subcontractor or supplier, at any tier, or costs incurred by the Contractor to acquire rights in subcontractor or supplier technical data or computer software, if the subcontractor or supplier has been paid for such rights under any other Government contract or under a license conveying the rights to the Government; and

(ii) Does not include the reasonable costs of reproducing, handling, or mailing the documents or other media in which the technical data or computer software will be delivered.

(2) Whenever any noncommercial technical data or computer software is to be obtained from a subcontractor or supplier for delivery to the Government under this contract, the Contractor shall use this same clause in the subcontract or other contractual instrument, and require its subcontractors or suppliers to do so, without alteration, except to identify the parties. The Contractor shall use the Technical DataCommercial Items clause of this contract to obtain technical data pertaining to commercial items, components, or processes. No other clause shall be used to enlarge or diminish the Government's, the Contractor's, or a higher tier subcontractor's or supplier's rights in a subcontractor's or supplier's technical data or computer software.

(3) Technical data required to be delivered by a subcontractor or supplier shall normally be delivered to the next higher tier contractor, subcontractor, or supplier. However, when there is a requirement in the prime contract for technical data which may be submitted with other than unlimited rights by a subcontractor or supplier, then said subcontractor or supplier may fulfill its requirement by submitting such technical data directly to the Government, rather than through a higher tier contractor, subcontractor, or supplier.

(4) The Contractor and higher tier subcontractors or suppliers shall not use their power to award contracts as economic leverage to obtain rights in technical data or computer software from their subcontractors or suppliers.

(5) In no event shall the Contractor use its obligation to recognize and protect subcontractor or supplier rights in technical data or computer software as an excuse for failing to satisfy its contractual obligation to the Government.

subcontractor(s) certifying that if a contract is awarded, the parties commit to joint performance as proposed (excluded from page count). For other affiliates, to include but not limited to, affiliate companies, sister companies, teaming arrangements, and joint venture agreements, the Offeror shall include a copy of the signed arrangement(s), such as documented affiliation, a copy of the teaming arrangement, or a copy of the joint venture agreement (excluded from page count). The primary offering entity shall demonstrate that the affiliate will perform significant and critical aspects of the contract, if awarded.

Offerors shall submit all Government and/or commercial contracts for the prime Offeror and each major subcontractor in performance or awarded during the past five years, from the issue date of this RFP, which are relevant to efforts required by this solicitation. Relevant efforts are defined as services/efforts the same as or similar to the effort (as compared to North American Industry Classification System (NAICS) code 334290) required by the Solicitation, efforts defined as those serving as a Prime Contractor or first tier subcontractor with a total contract value of \$3M or more with demonstrated cumulative relevant performance in the areas of Installation of physical security systems for intrusion detection, Risk Management Framework (or commercial equivalent) testing and compliance, access control and CCTV. Data concerning the Offeror shall be provided first, followed by each proposed major subcontractor, in alphabetical order. Offerors shall also submit written consent of its major subcontractor(s) to allow disclosure of its subcontractors past performance information to the Offeror. In addition, letters of commitment shall be included for all major subcontractors for their past performance to be considered. If applicable to the Offeror, submission of Past Performance Information at the Delivery Order level will count as a separate submission. By submission of Past Performance data, the Offeror: 1) authorizes the Government to seek and use information from commercial sources to verify performance of past commercial contracts, if applicable and 2) constitutes consent from subcontractors, teaming partners and joint venture partners to release Past Performance Information to the Offeror in order for the Offeror to respond to such information, if required by the Government. This volume shall be organized into the following sections:

a. Section 1 Past Performance Information Sheet. This section shall include the following information:

- Offerors shall submit a Past Performance Information Sheet on a maximum of 3 contracts as a Prime Contractor and a maximum of 2 Major Subcontractors that are considered recent and relevant to the efforts required by this solicitation in Section J, Attachment 0010, format. The Government may choose to investigate contracts prior to the past five years for purposes of the evaluation.

- Contracts terminated for any reason in whole or in part during the past five years, to include those currently in process of such termination are considered relevant. For any contracts that did not/do not meet original schedule or technical performance requirements, provide a brief explanation of the reason(s) for the shortcomings and any corrective action(s) taken to avoid recurrence. Offerors shall list each time the delivery schedule was revised and provide an explanation of why the revision was necessary. All Requests for Deviation and Requests for Waiver shall be addressed with respect to causes and corrective actions. Offerors shall also provide a copy of any Cure Notices or Show Cause Letters received on each contract listed and a description of any corrective action implemented by the Offeror or proposed subcontractor. The Offeror shall provide the Past Performance Questionnaire, provided in Section J, Attachment 0008, to the Contracts POC identified in the Past Performance Information Sheet. If this information can be obtained from CPARS, a Past Performance Questionnaire is not required. The Offeror shall complete Parts A, B, and C of the questionnaire prior to sending to the applicable POCs for completion. The Offeror shall advise the reporting Government Agency or commercial entity that completed Past Performance Questionnaires are considered Source Selection Sensitive IAW FAR 3.104. All completed Past Performance Questionnaires shall be sent from the customer directly to the Government POCs, Danny Lester, via e-mail at danny.w.lester.civ@army.mil and tony.d.adams10.civ@army.mil. Under no circumstance shall completed Past Performance Questionnaires be returned to the Offeror by the respondent. Offerors shall ensure completed questionnaires are submitted to the Government not later than one day before the proposal due date (Offerors shall advise the responding Government agency or commercial entity of the applicable date). Completed Past Performance Questionnaires will not count toward the page limit for Volume III.

ADDITIONAL INSTRUCTIONS TO OFFERORS CONSIDERING THE PRICE MODEL AT ATTACHMENT 0002: Offerors shall complete all yellow cells with Firm Fixed-Price estimates for all respective CLINs in the Price Model at Attachment 0002. CLIN 043 requires a proposed percentage that will be applied to cell G190 in all tabs. This percentage applies to the total price of CLINs (X001 thru X018, X024, X046, X047, X051, and X052). The pricing model is locked except the cells requiring Offeror input. CLIN and CDRL descriptions are provided on separate TABs that provides more detail. The Army Contracting Command -- Belvoir Division will conduct a price analysis for all vendors who are considered in the competitive range.

EVALUATION FACTORS FOR AWARD

This document incorporates one or more provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a provision may be accessed electronically at these addresses:

- For FAR clauses: <https://www.acquisition.gov/>
- For DFARS clauses: <https://www.acq.osd.mil/dpap/dars/dfarspgi/current/index.html>

If the provision requires additional or unique information, then that information is provided immediately after the provision title.

SECTION M EVALUATION CRITERIA:

A. BASIS OF AWARD:

An award will be made based on the best overall proposal determined most beneficial to the Government, with appropriate consideration given to the three evaluation factors: Technical, Price, and Past Performance. The Government intends to evaluate the proposals submitted and execute a single-award IDIQ contract. The Government intends to conduct discussions with Offerors in the Competitive Range, but reserves the right to award without discussions. The Government may elect to limit the number of proposals in establishing the Competitive Range to the greatest number that will permit an efficient competition among the most highly rated proposals.

Contract award will be made to the Offeror whose proposal offers the best overall value to the Government based on an integrated evaluation of Non-Price and Price Factors. The evaluation factors include: Technical, Price, and Past Performance. Technical and Past Performance will be rated using color coding and adjectival scales. IAW Best-Value Procurement procedures, the Government reserves the right to make award to other than the Offeror who submits the lowest total evaluated price or highest rated proposal.

The Technical Factor is more important than the Price Factor. The Price Factor is more important than Past Performance. When combined, the Non-Price Factors are more important than Price. All Technical subfactors are equally important. Subjective judgment against objective criteria is implicit in the evaluation process. Through trade off analysis, the Government may award to other than the lowest price Offeror or other than the highest technically rated Offeror.

To be eligible for award, an Offeror must receive an evaluation rating of ACCEPTABLE or better under the Technical Factor (with consideration of subfactors and a rating of NEUTRAL CONFIDENCE/SATISFACTORY CONFIDENCE or better under the Past Performance Factor. The Offerors price must also be found complete, fair, reasonable, and balanced. Any rating of unacceptable at the subfactor level may render the entire Technical factor unacceptable.

B. FACTORS AND SUBFACTORS

The following evaluation factors and subfactors will be used to evaluate each proposal: Award will be made to the Offeror whose proposal is most advantageous to the Government based upon an integrated assessment of the evaluation factors and subfactors described below. The Government reserves the right to make award based upon the Price factor in the event the Technical and Past Performance evaluation results of all the Offerors proposals are substantially the same.

FACTOR I TECHNICAL.

Subfactors

- 1 - System Design
- 2 - System Installation
- 3 - System Testing
- 4 - System Supportability
- 5 - Program Management

FACTOR II - PRICE.

FACTOR III PAST PERFORMANCE.

C. EVALUATION APPROACH

All proposals will be evaluated by a team of Government employees IAW FAR 15.305(a). The overarching evaluation approach for all factors and subfactors is as follows:

1. Adequacy of Response. The proposal will be evaluated to determine whether the Offerors methods and approach have adequately and completely considered, defined, and satisfied the requirements specified in the Solicitation. The proposal will be evaluated to determine the extent to which each requirement was addressed in the proposal in accordance with the proposal submission section of the

<p style="text-align: center;">CONTINUATION SHEET</p>	<p style="text-align: center;">Reference No. of Document Being Continued W909MY-23-R-0001</p> <p style="text-align: center;">PIIN/SIIN MOD/AMD</p>	<p style="text-align: right;">Page 296 of 300</p>

Name of Offeror or Contractor:

RFP.

2. Feasibility of Approach. The proposal will be evaluated to determine extent to which the proposed approach is workable and end results achievable. The proposal will be evaluated to determine extent to which successful performance is contingent upon proven devices and techniques. The proposal will be evaluated to determine extent to which the Offeror is expected to be able to successfully complete proposed tasks and technical requirements within the required schedule.

FACTOR I - TECHNICAL:

The Government will evaluate detailed narratives that address the requirements of the solicitation. Simply stating compliance with requirements is not sufficient detail to support an acceptable approach. The Technical Factor contains five subfactors.

The Government will evaluate technical proposals based on the adequacy of response and feasibility of approach to determine the extent to which Offerors have demonstrated their technical knowledge, ability, and management controls to successfully execute the effort. Significant strengths, strengths, weaknesses, significant weaknesses, and deficiencies, and the degree of performance risk associated with each proposal will be evaluated. Each subfactor will be separately rated.

Subfactor 1.1 System Design. The Government will evaluate the Offerors complete ICIDS-VI design that meets the Governments Performance Specification for an individual Installation that is able to report and be controlled by a centralized regional monitoring center. The Government will evaluate and assess the adequacy of response and feasibility of, at a minimum, the Offerors:

- Identification, description, and features of application software, operating system and support software
- CM Process
- Systems Engineering Process to executing Engineering Change Proposals
- Communications media testing and system communication regulations and requirements
- Method for achieving Risk Management Frame (RMF) accreditation and Network connection approvals IAW DoD system security requirements
- Method for managing obsolescence of equipment and software throughout the contract
- Detailed, complete design package to include drawings identifying system architecture, interfaces, design, communications and components for pseudo-site Fort FPS (Section J, Attachment 2.5). The Offeror developed interconnecting systems drawings are included in the Fort FPS design package. The 32-page design package is not included in the volume page count.

(2) Subfactor 1.2 System Installation. This subfactor evaluates the Offerors System Installation Subfactor. The Government will evaluate the Offerors approach to system installation. The Government will consider the adequacy of response and feasibility of, at a minimum, the Offerors:

- Comprehensive plan with timeline to completion of installation on how ICIDS will be installed OCONUS on individual Installations that are able to report and be controlled by a centralized regional monitoring center.
- Quality Assurance techniques and procedures to be used to ensure consistent quality site to site
- Process for Material Tracking of all equipment and parts from time of ordering until installation
- Proposed OCONUS Logistics support

(3) Subfactor 1.3 System Testing. This sub-factor evaluates the Offerors System Testing Subfactor. The Government will evaluate the Offerors approach to system testing and will assess the adequacy of response and feasibility of, at a minimum, the Offerors:

- Approach to system testing IAW SOW section 3.3, ESTL, and 3.16, Test and Evaluation
- Location of Engineering Support Test Laboratory (ESTL) for Performance Verification Test - 1 (PVT-1)
- Approach to supporting and maintaining ESTL operation throughout the life of the contract
- Performance Verification Test (PVT-2) and Endurance Test (ET) procedures for the first Installation
- System Acceptance Test (SAT) procedures composed of System Performance Verification (SPV) and ET for follow-on Installations
- Methods of documenting test and evaluation data
- Regression analysis and test procedures

(4) Subfactor 1.4 System Supportability. This sub-factor evaluates the Offerors proposed approach for System Supportability Subfactor. Based on the information provided by the Offeror, the Government will evaluate the proposals system software and hardware management and validation of the following:

- Procedures for warranty processing and maintenance planning
- Continuity Of Operations Plan (COOP) for system backup, recovery, documentation, and procedures
- Management approach of software licenses for installed systems

(5) Subfactor 1.5 Program Management. This sub-factor evaluates the Offerors Program Management Subfactor. The Government will evaluate

Name of Offeror or Contractor:

Offeror's proposed organization and procedures for management of ICIDS-VI. Evaluation includes the following:

- Approach to planning, scheduling and executing at least 4 to 6 concurrent installations at separate geographic locations
- System for monitoring, controlling and reporting progress, including subcontractors

The Technical Factor contains five subfactors. The Government will evaluate technical proposals based on adequacy of response and feasibility of approach to determine the extent to which Offerors demonstrated their technical knowledge, ability and management controls to successfully execute the contract. Strengths and weaknesses and degree of performance risk associated with each proposal will be evaluated. Each subfactor will be separately rated.

In accordance with Army Source Selection Supplement (AS3), Section 3.1, the Army methodology for evaluating Technical Approach and Related Risk is the Combined Technical/Risk Rating, (see Table 1 below). This methodology considers risk, in conjunction with the following for in determining technical ratings:

- Significant Strength. An aspect of an Offeror's proposal with appreciable merit or will exceed specified performance or capability requirements to the considerable advantage of the Government during contract performance.
- Strength. An aspect of an Offeror's proposal that has merit or exceeds specified performance or capability requirements in a way that will be advantageous to the Government during contract performance
- Weakness. A flaw in the proposal that increases the risk of unsuccessful contract performance. See FAR 15.001.
- Significant Weakness. A flaw in the proposal that appreciably increases the risk of unsuccessful contract performance. See FAR 15.001.
- Uncertainty. Any aspect of a non-cost/price factor proposal for which the intent of the offer is unclear (e.g., more than one way to interpret the offer or inconsistencies in the proposal indicating that there may have been an error, omission, or mistake). See FAR 15.001.
- Deficiency. A material failure of a proposal to meet a Government requirement or a combination of significant weaknesses in a proposal that increases the risk of unsuccessful contract performance to an unacceptable level. See FAR 15.001.

Combined technical/risk evaluations will utilize the combined technical/risk ratings listed in Table 1 and the risk descriptions set forth in Table 2.

Table 1: Combined Technical/Risk Rating Method

ADJECTIVAL RATINGS FOR MANAGEMENT AND TECHNICAL FACTORS

Outstanding (Blue): Proposal demonstrates an exceptional approach and understanding of the requirements and contains multiple strengths and/or at least one significant strength, and risk of unsuccessful performance is low.

Good (Purple): Proposal indicates a thorough approach and understanding of the requirements and contains at least one strength or significant strength, and risk of unsuccessful performance is low to moderate.

Acceptable (Green): Proposal meets requirements and indicates an adequate approach and understanding of the requirements, and risk of unsuccessful performance is no worse than moderate.

Marginal (Yellow): Proposal has not demonstrated an adequate approach and understanding of the requirements, and/or risk of unsuccessful performance is high.

Unacceptable (Red): Proposal does not meet requirements of the solicitation, and thus, contains one or more deficiencies and is unawardable, and/or risk of performance is unacceptably high.

Assessment of technical risk, which is manifested by the identification of weakness(es), considers potential for disruption of schedule, degradation of performance, the need for increased Government oversight, and/or the likelihood of unsuccessful contract performance. Technical risk shall be rated using the ratings listed in Table 2.

Table 2: Technical Risk Rating

Low: Proposal may contain weakness(es) which have little potential to cause disruption of schedule or degradation of performance. Normal contractor effort and normal Government monitoring will likely be able to overcome any difficulties.

Moderate: Proposal contains a significant weakness or combination of weaknesses which may potentially cause disruption of schedule or degradation of performance. Special contractor emphasis and close Government monitoring will likely be able to overcome difficulties.

High: Proposal contains a significant weakness or combination of weaknesses which is likely to cause significant disruption of schedule or degradation of performance. Is unlikely to overcome any difficulties, even with special contractor emphasis and close Government monitoring.

Name of Offeror or Contractor:

Unacceptable: Proposal contains a material failure or a combination of significant weaknesses that increases the risk of unsuccessful performance to an unacceptable level.

FACTOR II PRICE:

In evaluating offers, the Government will perform a price analysis based on adequate price competition. The total price will be evaluated based on extended prices for all CLINs. Prices for Travel and Delivery Order Contingencies are indeterminate at this time. Therefore, the Government has provided plug in amounts for these CLINs in Section J, Attachment 0007, CLIN Pricing Instructions. Travel will be reimbursed only on a cost reimbursable basis (no profit or fee shall be applied). Prices, quantities, and durations for any initial and/or recurring software licenses/fees/maintenance in Section J Attachment 0011, Software License, will be requested to determine impact to system lifecycle costs but will not be considered in the total evaluated price.

The contract price proposal will be evaluated for completeness, fair and reasonableness and balance. The Price factor will not be given an adjectival rating.

Price reasonableness is a matter of competitiveness of the Offeror's proposal, considering total price.

All proposed contract prices will be considered in the overall price evaluation. The Government will conduct price and technical analyses to evaluate each Offerors pricing information in terms of completeness and reasonableness.

Significant inconsistencies between the Technical Proposal and Price Proposal, if unexplained, may be grounds for proposal rejection. The Government will evaluate each proposal IAW its content and not assume performance will include areas not specified in the Offeror's proposal.

Adjectival ratings shall not be used for Offerors Cost/Price proposals. The Government will fully evaluate and negotiate all priced ordering periods for award. For award purposes, the total proposed price for all CLINs will be added together into a total sum contract ceiling. Evaluation of all optional ordering periods will not obligate the Government to place more than the minimum order. Each Offerors Cost/Price proposal will be evaluated as follows.

a. FFP Evaluation. For a price to be fair and reasonable, it must represent a price to the Government that a prudent person would pay in the conduct of competitive business. The Offerors proposed fixed-price CLINs may be evaluated, using one or more of the techniques described in FAR 15.404-1 in order to determine if they are fair and reasonable.

b. Overall Cost/Price Proposal Evaluation: The overall Cost/Price proposal will be evaluated for the following:

1) Compliance: The Cost/Price proposal submitted by the Offeror will be evaluated for compliance based upon the submission requirements contained in the Volume II Price instructions.

2) Unbalanced Pricing: The Offerors overall Cost/Price proposal will be evaluated for unbalanced pricing as defined in FAR 15.404-1(g). An offer may be rejected if the contracting officer determines the lack of balance poses an unacceptable risk to the Government (see FAR 15.404-1(g)(1) through FAR 15.404-1(g)(3)).

3) Errors: The Offerors Cost/Price proposal will be reviewed for errors. The Offeror may be given an opportunity to clarify certain aspects of their proposal at sole discretion of the Contracting Officer.

4) Business Systems: The Government will verify the adequacy of the Offerors business systems and verify the Offeror has an approved accounting system.

5) Total Evaluated Price: The Total Evaluated Price consists of summing the Offerors proposed fixed-price CLIN prices.

FACTOR III PAST PERFORMANCE FACTOR:

The Government will evaluate the Offerors record of past and current performance to ascertain the probability of successfully performing the required SOW efforts. The Government will assess if the proposed major subcontractors are appropriate based on the definition of major subcontractor. If subcontractor experience is submitted as part of the proposal, the Offeror shall attach a commitment signed by the Offeror and subcontractor certifying that if a contract is awarded, the parties commit to joint performance as proposed. If the fully executed commitment signed by both parties is not provided with the proposal, the subcontractor references will not be evaluated or considered. Other affiliates, to include but not limited to, affiliate companies, sister companies, teaming arrangements, and joint venture agreements, will be considered provided that sufficient documentation is included in the proposal. Examples of sufficient documentation includes a copy of the signed arrangement, such as documented affiliation, a copy of the teaming agreement, or a copy of the joint venture agreement. The primary offering entity must demonstrate that the affiliate will perform significant and critical aspects of the contract if awarded. The Government will assess recency of proposed references, then relevancy, and finally use a quality assessment to establish an overall past performance rating.

a. Evaluation of past performance shall utilize the forms and questionnaires set forth in Section J, Attachments 0008 and

<p style="text-align: center;">CONTINUATION SHEET</p>	<p style="text-align: center;">Reference No. of Document Being Continued W909MY-23-R-0001</p> <p>PIIN/SIIN MOD/AMD</p>	<p style="text-align: right;">Page 299 of 300</p>
--	--	--

Name of Offeror or Contractor:

0010 as well as available past performance information in Government databases and/or individuals knowledgeable of each reference.

b. The Government will focus its inquiries on the Offerors (and major subcontractors) record of performance as it relates to all solicitation requirements, including cost, schedule, performance and management of subcontractors. A significant achievement, problem, or lack of relevant data in any element of the work can become an important consideration in the evaluation process. Therefore, Offerors will be reminded to include the most recent and relevant efforts (within the past five years) in their proposal.

c. Absent any recent and relevant past performance history or when the performance record is so sparse that no meaningful confidence assessment rating can be reasonably assigned, the Offeror will be assigned a neutral confidence rating and its proposal will not be evaluated either favorably or unfavorably on past performance. The Government may use data provided by the Offeror in its proposal and data obtained from other sources, including data in Government files or data obtained through interviews with personnel familiar with the contractor and their current and past performance under Federal, State or Local government or commercial contracts for same or similar services as compared to the NAICS 334290.

d. Offerors shall submit all Government and/or commercial contracts for the prime Offeror and each major subcontractor in performance or awarded during the past five years, from the issue date of this RFP, which are relevant to the efforts required by this RFP. The Government may consider a wide array of information from a variety of sources, but is not compelled to rely on all of the information available.

e. The past performance factor considers each Offerors demonstrated recent and relevant record of performance in supplying products and services that meet the contract requirements. There are three aspects to the past performance evaluation: recency, relevancy, and quality.

1) RECENCY: The first aspect is to evaluate recency of the Offerors past performance. Recency is generally expressed as a time period during which past performance references are considered relevant, and is critical to establishing the relevancy of past performance information. Recent past performance may extend to related experience in the past five years. If the Offeror does not provide related experience in the past five years, then Relevancy and Quality will not be evaluated, and the Past Performance assessment will conclude.

2) RELEVANCY: The second aspect is to determine how relevant a recent effort accomplished by the Offeror is to the effort to be acquired through the source selection. If the Offeror's past experience is Not Relevant, then Quality will not be evaluated, and the Past Performance assessment will conclude. Relevancy is not separately rated; however, the following criteria (see Table 3) will be used to establish what is relevant which shall include similarity of service/support, complexity, dollar value, contract type, and degree of subcontract/ teaming.

Table 3: Past Performance Relevancy Rating

- Very Relevant: Present/past performance effort involved essentially the same scope and magnitude of effort and complexities this solicitation requires.
- Relevant: Present/past performance effort involved similar scope and magnitude of effort and complexities this solicitation requires.
- Somewhat Relevant: Present/past performance effort involved some of the scope and magnitude of effort and complexities this solicitation requires.
- Not Relevant: Present/past performance effort involved little or none of the scope and magnitude of effort and complexities this solicitation requires.

3) QUALITY ASSESSMENT: The third aspect assesses overall quality of the Offerors past performance. A Quality Assessment will only be performed if past experience is Recent and Relevant. Documented results from Past Performance Questionnaires, interviews, CPARS, and other sources form the support and basis for this assessment. The Past Performance Evaluation Team will review all past performance information collected and determine quality of the Offerors performance, general trends, and usefulness of the information and incorporate these into the performance confidence assessment. A separate quality assessment rating is not required; rather, the past performance confidence assessment rating is based on the Offerors overall record of recency, relevancy, and quality of performance.

f. Performance Confidence Assessment: The Government will utilize the Performance Confidence Assessment (see Table 4 below) to select the most appropriate confidence level for each Offeror.

Table 4: Performance Confidence Assessments

- Substantial Confidence: Based on the Offerors recent/relevant performance record, the Government has a high expectation that the Offeror will successfully perform the required effort.
- Satisfactory Confidence: Based on the Offerors recent/relevant performance record, the Government has a reasonable expectation that the Offeror will successfully perform the required effort.

Neutral Confidence: No recent/relevant performance record is available or the Offerors performance record is so sparse that no meaningful confidence assessment rating can be reasonably assigned. The Offeror may not be evaluated favorably or unfavorably on the facto of past performance.

Limited Confidence: Based on the Offerors recent/relevant performance record, the Government has a low expectation that the Offeror will successfully perform the required effort.

No Confidence: Based on the Offerors recent/relevant performance record, the Government has no expectation that the Offeror will be able to successfully perform the required effort.
